DO YOU WANT TO TAKE PART IN DIGITALIZATION?

The world of information technology (IT)) is constantly thriving and changing in how the world interacts in almost every aspect. From smartphones to cashless transactions, everything that we do today involves the application of computing (IT) in one way or another. It's so ingrained in every industry that it is hard to imagine the world runs without it.   IT, at its core, is a business of providing solutions to a range of industries, to name a few, from medical to tourism, food and beverages to engineering which have majorly been shifted by the evolution of IT systems. Behind every IT solution there are innovative and creative people who design and create the systems that we all rely on, and this could be the future you.
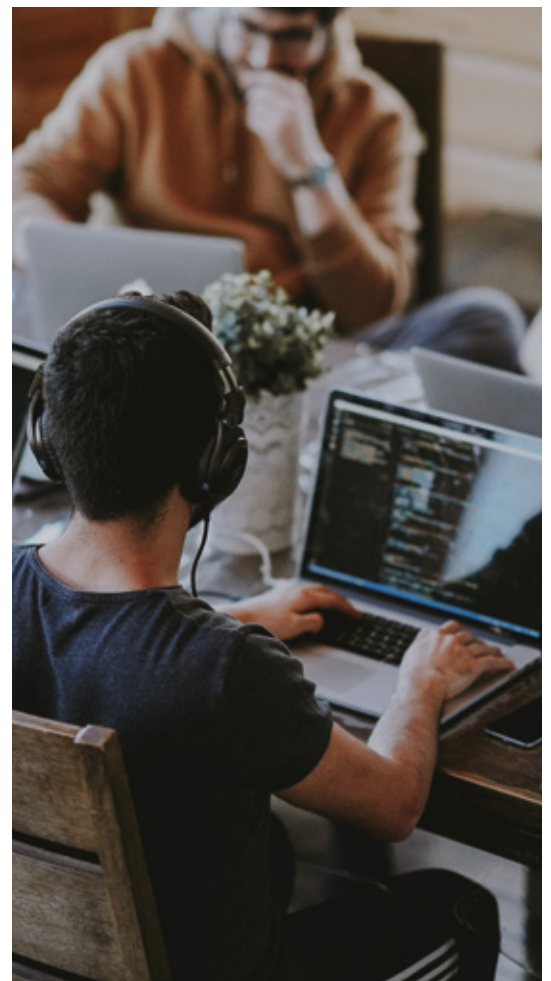

Be part of this excitement, shape the world, with your groundbreaking IT Innovation!
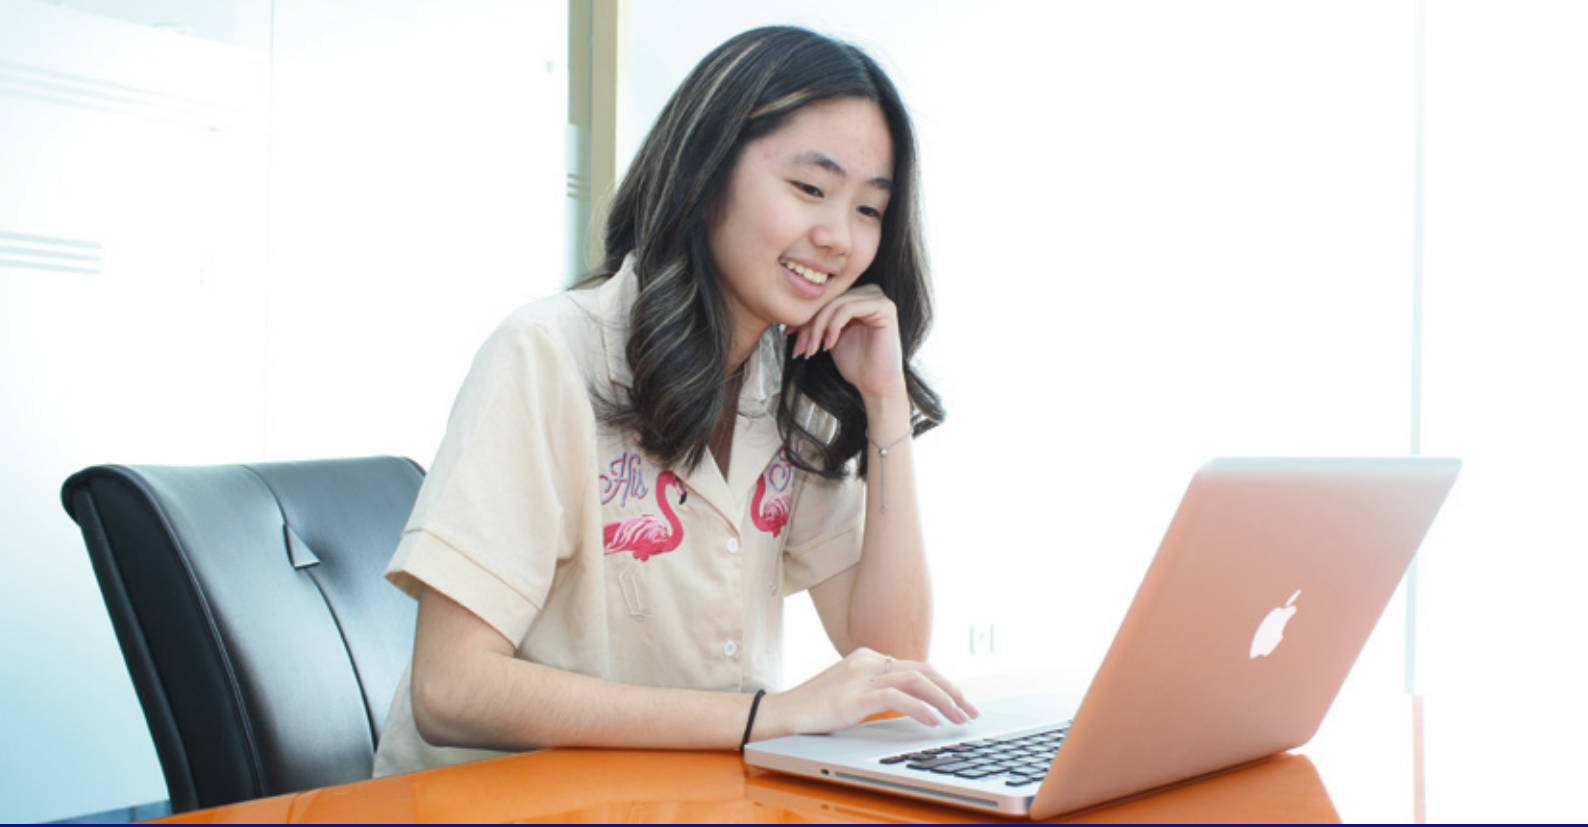

REAL WORLD LEARNING

UIC offers a real-world curriculum that mirrors the needs in the industry. A series of practical activities that will take students to study beyond the classroom has been developed based on the input and advice from the industry experts, including :

• Guest Lecturers   • Seminars
• Professional Development   • Field Trips
• Studio Practices   • Internship
• Company Visits   • Many More
• Real Client Projects

These practical learning experiences are aiming at fostering students' professional and soft skills development, motivation to explore and a sense of creativity. Therefore, they are ready to explore deeply into themselves, discover their unique qualities and achieve their professional aspirations.

COMPUTING PROGRAM AT UIC COLLEGE

UIC runs the internationally recognised Pearson BTEC Computing from the United Kingdom qualifications which has over 20 years of proven success. Using an international curriculum and faculty with experienced lecturers and practitioners. The program is aimed at developing students as professional, self-reflecting individuals able to meet the demands of employers in the computing sector and adapting to a constantly changing world through a holistic perspective. Our comprehensive and dedicated approach to IT means you get plenty of choices and flexibility.

With experienced teaching staff in this field, our program covers the central area of IT. Students will gain the computing skills, knowledge and the understanding necessary to achieve high performance in the global computing environment, upon completing UIC Computing program.

UIC BSD CAMPUS TEACHING AND LEARNING FACILITIES.

Nestled in the exclusive Bumi Serpong Damai City, the campus opts for a contemporary interior and setting, which favors uncluttered and streamlined aesthetic. We want to ensure that our campus is an environment that nurtures creativity. BSD City (especially Foresta & Edutown cluster) has earned the nickname the Silicon Valley of Indonesia, all thanks to a slew of major international businesses headquartered here. Case in point: Unilever and Apple. We have a solid relationship with the major players in this area, and our students have benefited greatly from having access to the first-hand experience working and learning from industry insiders.

Our campus provide all inclusive facilities that accomodate students' need of conducive learning environment. The classrooms and lecturer halls are equipped with audio-visual, multimedia, and computing facilities, while the library boasts a comprehensive collection of books, journals, periodicals, student projects, and other related publications. Additionally, students also have access to digital libraries from our international partners' providers.
