ENTERING THE LEADERSHIP ROLE IN THE AVIATION INDUSTRY

The aviation industry offers a range of exciting and avant-garde careers that did not exist in previous generations.

The aviation industry includes wide range of air travel activities such as the entire airline industry, aircraft manufacturing, airport management, research companies, military aviation, and much more.

It is an industry that worth 838 billion U.S. dollars in 2019, with growth rate of 8% annually. In the new era, the future of aviation industry is predicted will be enhanced by new technologies and a greener system, which means it will be more dynamic than ever before and indeed need qualified professionals to manage the challenges and ignite opportunities.

Get yourself ready for the leadership role in the future of aviation industry through UniSadhuGuna (USG) – Flybest Executive Development Program.

Flybest Flight Academy is an independent and privately owned aviation training facility which has its office base in Jakarta and Training Based In Batam. Founded by people who take flying not just an occupation, but a passion in life. Launched on 17 January 2013, Flybest is supported by a team who has been in Commercial Aviation Industries for decades.

GAIN YOUR BACHELOR OF BUSINESS FROM UNISADHUGUNA & TEESSIDE UNIVERSITY UK.

The growth of the industry brings new challenges and companies in the aviation industry will require, perhaps more than any other industries, a talented, engaged and increasingly specialized workforce in the future especially as mentioned in the report by Ernst & Young “Because of the highly specialized nature of the aviation industry, companies must hire and retain the skilled and qualified personnel necessary to perform the business-critical processes”.

To cater these needs, USG Education in partnership with Teesside UK offer students the Executive Development Program which prepare Pilot License Holder to expand their qualifications and gain the opportunities to work in different roles within aviation industry or others.
