Foundation Studies in Indonesia

Students Assessment

All Uniprep students are assessed throughout the course in each subject by means of continuous assessment such as assignments, essays, projects, laboratory work, as well as examinations. These assessments contribute to the final assessments score. There is an examination at the end of semester one and a final examination at the end of semester two. The semester one result contributes about 30 percent and semester two result about 70 percent towards the final Grade Point Average (GPA).

A+	10	EXCELLENT PASS
A	9.5	
A-	9.0	
B+	8.5	VERY GOOD PASS
B	8.0	
B-	7.5	
C+	7.0	GOOD PASS
C	6.5	
C-	6.0	MODERATE PASS
D+	5.5	
D	5.0	
D-	4.5	FAIL
E+	4.0	
E	3.5	
E-	3.0	
F	0	

◀ Letter Grades and Associated Grade Point

A student's performance in each subject is expressed in terms of a letter grade, which is associated with a score out of 10, so that a final GPA can be calculated. The table to the side shows each possible letter grade and its associated score.

Subject and Units of Credit ▶

Each subject is allocated a number of Units of Credit, which determine its weighting in the GPA calculation.

+ Academic English	10
+ Math (Science)	12
+ Math (Commerce)	10
+ Essentials of Maths	8
+ Computing Studies	6
+ Chemistry	10
+ Physics	10
+ Economics	10
+ Accounting	4
+ Business Law	4
+ Management	4
+ Australian Studies	12
+ Design	12

GPA Calculation

The GPA is determined by averaging the grade point multiplied by the Units of Credit (UOC) for each subject. The example below shows possible grades for a commerce student and the resulting GPA calculation.

Subject	Units of Credits	Final Grade	GPA Calculation
Academic English	10	B+	10 x 8.5 = 85
Mathematic (Commerce)	10	A	10 x 9.5 = 95
Economics	10	A-	10 x 9.0 = 90
Management	4	B-	4 x 7.5 = 30
Business Law	4	C	4 x 6.5 = 26
Computing Studies	6	C	6 x 6.5 = 39
Accounting	4	B	4 x 8.0 = 32
Total	48		397

GPA : Total points earned divided by total units of credits = 397 : 48 = 8.3

Pondok Indah Campus
