Subject: Paying International Student fees is easier than ever!

Dear JAKARTA (HQ) - Novi,

We are pleased to announce that Victoria University offers greater options for international students to pay for their education in their home currency.

Victoria University has partnered with Western Union Business Solutions, a global leader in education payments, as our chosen payment processor, to provide convenient, cost-effective options to students.

Western Union provides Victoria University with a reliable online payment application, Western Union student payment portal, through which both bank transfer and credit card payments can be made.

Direct Credit payments

When these payments are made direct to a New Zealand bank account, they can often be hard for the University to reconcile, and bank charges mean that the payment may arrive short. Utilising Western Union speeds up the payment processing time and eliminates these issues.

Credit cards

When paying by credit card, Western Union allows the student to review the amount to pay in their local currency and total cost at the time of payment. Typically, the rate of exchange is not readily available to the payer, who may only understand the local cost of the transaction upon receipt of their credit card statement.

When making payment via Western Union it can result in faster receipt of a student's Confirmation of Study and a quick start to their visa application process.

Should you have any questions, please feel free to get in touch with Victoria International or visit [Western Union's website](#) for more details.

Kind regards,

Victoria International
