

RMIT Program Offer

Please kindly be advised that the intlseasia@rmit.edu.au isn't used for correspondence, it's a generic email used to send out offer letters.

Also setint@rmit.edu.au email is not the email address used for business programs admission.

A student cannot apply for 2 programs at the same intake. One program needs to be assessed first and when the application outcome is ready, the student can decide whether he wants to accept that program or not.

If he decides not to, then the offer for that program needs to be withdrawn first before submitting another application for another program.

Please kindly note this procedure.
