This prospectus is intended as a general guide for international students. The information provided is, as far as possible, up to date and accurate at the time of publication. The University reserves the right to add, amend or withdraw programmes and facilities, to restrict student numbers and to make any other alterations as it may deem necessary. The regulations of the University of Otago are published annually in the University Calendar.

Published by the University of Otago International Office: July 2016.

Why study at Otago?

OTAGO GRADUATES
ARE SOUGHT AFTER
AND APPRECIATED

- It has an international reputation for excellence
- Otago is the leading postgraduate research institution in New Zealand
- Otago graduates are highly regarded by employers
- It offers an unrivalled campus experience and vibrant cultural life
- International students are strongly supported
- Otago offers over 190 undergraduate and postgraduate courses
- It has an extensive student exchange programme with more than 90 partners in 33 countries
- It offers high quality pathway programmes

Welcome

OTAGO HAS OVER
2,500 INTERNATIONAL
STUDENTS FROM
100 COUNTRIES

The University of Otago is New Zealand's first university, established in Dunedin by early Scottish settlers who had a strong belief in the value of education. This commitment continues today – education is Dunedin's main “industry”; and Dunedin is New Zealand's only true university city. Of Dunedin's population of 120,000, more than 20,000 are University of Otago students – and over 2,500 of them are international students.

These students come to Otago from all over the world to take advantage of the University's worldwide reputation for excellence. Otago is at the forefront of modern scholarship and has a long-established tradition of innovation. It is for this reason Otago is able to attract first-rate academics, and our graduates are renowned for their independence and audacity of spirit, which makes them highly regarded by prospective employers.

Otago graduates are sought after and appreciated, and many occupy influential positions in industry, government and within their communities across the world.

A national presence

The University of Otago has a presence throughout New Zealand. Most undergraduate and postgraduate study takes place on the Dunedin campus, but the University is also represented in Auckland, Wellington, Christchurch and Invercargill. The Schools of Medicine and Health Sciences in Wellington and Christchurch are home to many leading medical researchers, and a large number of Health Sciences postgraduate courses are taught from these campuses.

Dunedin campus

The Dunedin campus is located just a few blocks from the centre of the city and on the edge of the Dunedin Botanic Garden. It is a beautiful campus – the Water of Leith winds its way past the iconic stone Clocktower, the state-

of-the-art Centre for Innovation, the multi-award-winning Information Services Building and the many character villas that are home to much of Otago's student population. Students benefit from Dunedin's relatively inexpensive cost of living, and house prices and rentals are affordable, particularly compared to New Zealand's northern cities. It is a safe city in which to live and it is easy to get out and about to take advantage of everything it has to offer – and the ski fields of Central Otago are only a few hours' drive away.

More information about Dunedin can be found on page 34.

International commitment

Making the decision to study at a university overseas is a bold one, but provides a valuable opportunity to learn about other cultures, gain maturity and develop the global perspective which is increasingly important for graduates today.

The University of Otago recognises this and is strongly committed to international education. It has collaborative teaching, research and exchange agreements with major institutions around the world (see page 38) and, in addition to the many services and facilities available to all students (see page 24), its International Office provides a range of specialist services for international students. An orientation programme is run at the start of each semester, and international student advisers and student mentors are available to help students make the adjustment to life at Otago and to provide on-going help and support.

Otago offers a rich cultural life, reflecting a diverse international student community and New Zealand's own multicultural population. It also has a network of around 100,000 graduates living in more than 142 countries and has established alumni branches in many of the world's major cities including London, Sydney, Melbourne and Kuala Lumpur.

The University of Otago is a foundation member of the Matariki Network of Universities (MNU), a select international group of outstanding universities, with each member amongst the oldest and foremost places of learning in its respective country. The MNU has been established to enable the universities to enhance diversity, to share ideas and expertise, and to learn international best practice from each other, recognising the shared commitment to an ethos of excellence in research, scholarship and rounded education. The other members of MNU are Dartmouth College (USA), Durham University (England), Queen's University (Canada), Eberhard Karls Universität Tübingen (Germany), The University of Western Australia and Uppsala Universitet (Sweden).

Otago scores
‘five-stars-plus’
for excellence
and quality

Research

Research underpins all academic activity at Otago and the University continues to build on its long-held reputation for research excellence.

The Government's latest Performance-Based Research Fund (PBRF) quality assessment confirmed the University of Otago as the leading postgraduate research institution in New Zealand. Otago was the only university to be ranked in the top four in all average quality score (AQS) measures.

The PBRF ranked Otago first or second in 17 subject areas – including first in four of the 10 top-ranked subject areas: law, pharmacy, philosophy and pure and applied mathematics – and more than 55 per cent of Otago's academic staff were identified as internationally or nationally distinguished.

THE UNIVERSITY OF
OTAGO IS THE LEADING
POSTGRADUATE
RESEARCH INSTITUTION
IN NEW ZEALAND

Graduate research

The PBRF evaluation confirmed Otago's position as New Zealand's leading postgraduate research university. Access to research-informed teaching and supervision by acknowledged leaders in their field is vital for postgraduate students: this ranking shows that Otago offers the best in the country.

Otago has the highest proportion of postgraduate research students of any university in New Zealand. Of the more than 4,500 postgraduate students currently enrolled, over 1,380 are doctoral candidates. The University provides a strong foundation for student research through scholarships (see page 10), as well as state-of-the-art library and computing facilities, and excellent supervision.

Otago PhD candidates are supported by the University to travel to leading international conferences to present their research findings. All thesis students receive support and mentorship from their supervisors, and the Dean and Manager of the Graduate Research School are both available for consultation by students should the need arise. The Dean also chairs the Graduate Research Student Liaison Committee, a representative group of research masters' and PhD candidates acting as a forum for student issues.

For further information about graduate research at Otago, please consult the following websites:

PhD: otago.ac.nz/phd
Masters: otago.ac.nz/masters

Research themes and centres

The University has recognised a number of areas of particular research strength as Research Themes and Research Centres. Many of these are multidisciplinary; they encourage research across a range of academic fields and provide outstanding opportunities, especially for postgraduate students.

Many other areas of strength are listed on the programme information pages of this prospectus.

Themes

Allan Wilson@Otago (Research Theme for Human Evolutionary Genomics)

Ag@Otago

Asia-Pacific Biocultural Health: Past and Present

Aspire 2025 Research for a Tobacco-Free Aotearoa

Collaboration of Ageing Research Excellence (CARE)

Integrated Catchment Management

New Zealand Ocean Acidification Research Cluster

Otago Energy Research Centre

Pain@Otago

Performance of the Real Research Theme

Polar Environments Research Centre

Poutama Ara Rau

Te Koronga: Indigenous Science

Research Centres

Brain Health Research Centre

Centre for Neuroendocrinology

Centre for Quantum Science (QSO), University of Otago

Centre for Research on Colonial Culture

Centre for Society, Governance and Science

Centre for Sustainability (CSAFE)

Centre for Translational Cancer Research

Christchurch Heart Institute

Edgar National Centre for Diabetes and Obesity Research

Genetics Otago

National Centre for Lifecourse Research

New Zealand Centre for Sustainable Cities

Sir John Walsh Research Institute

Webster Centre for Infectious Diseases

Individual staff research expertise can be found on the divisional and departmental pages of the website:

otago.ac.nz/departments

Centres of Research Excellence

The University of Otago also hosts two Centres of Research Excellence (CoREs), government-funded centres that promote academic enquiry into areas considered of national and international importance. Otago's two CoREs are:

- The Dodd-Walls Centre for Photonic and Quantum Technologies
- Brain Research New Zealand – Rangahau Roro Aotearoa (co-hosted with the University of Auckland).

The CoREs are an exciting opportunity to develop and build on Otago's existing collaborations. They also allow for the development of Otago's own research capacity, as well as nurturing the next generation of scientists.

Studying at Otago

Academic year

The University academic year is divided into two semesters. The first semester runs from late February until the end of June; the second semester runs from early July until mid November. Postgraduate thesis-only students, however, can begin their studies at any time. A Summer School is also offered from early January to mid-February each year. This gives students the opportunity to study one or two papers for credit over a short teaching period and outside the standard semester timetable.

Programme information

This prospectus contains only general information about programmes offered at Otago. For information specific to your field of interest, please view the University's website:

otago.ac.nz/courses/qualifications

Credit transfer

The University may grant credit (advanced standing) for study undertaken at another tertiary institution. Courses completed should be comparable in content and standard to those offered at Otago.

Study abroad and exchange

Students enrolled at a university overseas can choose to study at Otago for one or two semesters. Credits from Otago courses are transferred back to a student's home university. Please contact the International Office for a copy of the University's *Study Abroad and Exchange Guide* or visit the University of Otago website:

otago.ac.nz/international/studyabroad

International students enrolled at Otago are eligible to participate in the student exchange programme.

More information about student exchange opportunities is available on page 38 of this prospectus or on the University's website:

otago.ac.nz/studentexchange

International School

An International School offering a choice of papers for credit is offered in June-July each year. The papers cover New Zealand entrepreneurship, Māori and Pacific cultures, and landscape development and environmental change in the South Island of New Zealand.

otago.ac.nz/internationalschool

Admission and enrolment

Please refer to the Application and Costs information from page 40.

English language

Specific English language requirements are detailed on page 46 of this prospectus. If your English language skills are not sufficient for admission, you may be required to take an intensive language course at the University of Otago Language Centre.

otago.ac.nz/uolcfy/uolc

Undergraduate degrees

190

UNDERGRADUATE AND
POSTGRADUATE COURSES

New Zealand universities generally follow the British model of three-year undergraduate (bachelors') degrees with an increasing level of specialisation and difficulty in each year. A degree almost always includes subjects other than the major or specialist subject, but the major subject is usually studied in every year of the degree.

Papers

Papers are the building blocks of a degree and comprise a fixed course of work in particular aspects of a subject. Most take one semester to complete; however, some papers, particularly for Health Sciences degrees, run for the whole year. Introductory papers are at 100-level, increasing to 200-level and 300-level papers in subsequent semesters or years. 400-level papers are generally at the postgraduate level.

Points

Each paper passed is worth points – mostly 18 points – which students accumulate to achieve a degree. A three-year degree is usually made up of 360 points, with a certain number required at 200- and 300-levels to meet the requirements of a student's major subject, and the overall programme.

Choosing a major subject

It is not necessary to make this decision in the first year. A well-planned first year will allow flexibility of choice, but also cover any prerequisites there may be for the 200-level and 300-level papers later chosen. Some students may elect to take a double major programme, completing 300-level requirements in two subjects.

Prerequisites and corequisites

Most papers beyond 100-level have prerequisites: specific papers that must be passed before enrolment in the new papers. Some papers also have corequisites. If the corequisite has not already been passed, it must be taken at the same time as the new paper.

Teaching

Lectures are the main method of presenting information at undergraduate level. Students also take part in laboratories and tutorials, and are expected to back up new knowledge with reading.

Workload

A full-time course is generally between 54 and 72 points in a semester, or between 108 and 144 points in a year. As an approximate guide, students can expect to spend about 12 hours per week per one single semester paper (18 points). In general, very able students take 144 points in a year, while most take 126.

Assessment

Most papers have a two- or three-hour examination or "final" at the end of each semester (or at the end of the second semester for full-year papers) and many papers have shorter tests during the year. Written assignments, presentations and laboratory work also count towards the final grade. Continuous internal assessment is a feature of almost all Otago papers and assessment requirements will be made clear at the beginning of the semester.

Problems?

Tutors and lecturers will discuss, within class or privately, any problems students may have understanding lectures or tutorials, completing assignments or preparing for examinations. The Student Learning Centre offers a number of services to help students improve study and learning skills.

Other options

In addition to three-year bachelors' degrees, Otago also offers:

- Specialised degrees (including Dentistry, Law, Medical Laboratory Science, Medicine, Pharmacy, Physical Education, Physiotherapy and Surveying) which take more than three years to complete and have specific admission requirements
- Double degree programmes which involve cross crediting (sharing) papers between the two qualifications.

Postgraduate study

otago.ac.nz/postgraduate

POSTGRADUATE STUDY OPTIONS

Doctor of Philosophy

The degree is awarded on the basis of the submission of a thesis that gives evidence of the candidate's ability to carry out research, and demonstrates that the candidate has shown originality and independence, and has made a significant contribution to knowledge in a particular field. The PhD degree can usually be completed in a minimum of three years' full-time study.

Entrance requirements

Admission usually requires the completion of a master's degree, or a first-class or upper second-class honours degree in the same area of study, or a related discipline, as the intended area of research.

Admission

The PhD degree has its own admission process. Initial admission for the degree is provisional and is confirmed only after one year of satisfactory full-time study. Further information on admission requirements and the PhD regulations is available online.

How to apply

Students should seek informal acceptance from a department and supervisor(s) before applying formally for PhD admission. As a potential research student, you need to be well-prepared, and show initiative and aptitude.

1 Identify the research interests of the relevant department(s) and individual staff members

You should browse relevant academic department or discipline area websites to get an understanding of the research focus at Otago and the research interests of staff. The University has created an expertise database to help you find an academic staff member(s) who shares the same research interests as you.

2 Develop a possible research topic that fits in with these interests (see otago.ac.nz/phd or department websites for guidance on putting together a proposal)

3 Approach a potential supervisor

- In order to be considered for the programme you need to contact an academic staff member(s) directly with an introductory email. A general, introductory email to a potential supervisor that reveals no knowledge of the specific research areas of the staff member or department is not likely to be taken seriously.
- Attach a detailed research proposal that shows you are familiar with current literature surrounding your topic
- Attach an up-to-date curriculum vitae
- Provide an approximate start date

4 Submit your application online

Once you have received confirmation that the academic staff member is willing to supervise you go online to complete an application at otago.ac.nz. See page 47 for more information.

Intake and deadline application

Applicants for research-only (thesis) programmes may commence study at any time of the year and may make application throughout the year. However, it is anticipated that most candidates will commence study at the beginning of either semester.

New Zealand domestic tuition fees

(see notes 8-10 on page 49)

Tuition fees for Subject Categories (per 1.0 ECTS)

Postgraduate thesis	NZ\$
Arts, Languages, Theology, Mathematics	\$6,331
Commerce	\$6,104
Law	\$6,846
Computer Science, Geography, Information Science, Music, Science	\$7,392
Health Sciences, Pharmacy, Surveying	\$9,377
Medicine	\$9,377
Dentistry (non-clinical)	\$9,569

The main fee bands listed above provide an estimate of the fees payable by postgraduate students in 2016. Domestic tuition fees for 2017 will be set in late 2016.

Up-to-date information on New Zealand domestic tuition fees, sundry and administrative fees can be found on the University's website at: otago.ac.nz/study/fees

otago.ac.nz/phd

ENJOY A 3:1 RATIO TO
RESEARCH-ACTIVE STAFF

Masters' degrees

Masters' degrees vary in nature at Otago, but most allow for the development of individual research skills. Working from a strong background of study, candidates have the opportunity to contribute to existing specialist fields or to begin to develop new areas of research. Masters' degrees are often research-only, but some can be a combination of research and coursework, or a mainly coursework programme.

A master's degree is normally a full-time one-year programme for candidates with an honours degree or postgraduate diploma, or a two-year full-time programme for candidates with a standard bachelor's degree. There are also several coursework masters' programmes that are one to one-and-a-half years in length and allow entry after a standard bachelor's degree. Such programmes are usually designed to take students from diverse academic backgrounds.

Entrance requirements

Candidates with an honours degree or postgraduate diploma may apply for master's study by thesis only. In some cases, candidates with a bachelor's degree may apply for a coursework master's degree or for master's study by coursework and thesis.

A master's degree is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, postgraduate diploma or honours degree. However, some other masters' programmes are available that require only that the candidate is a graduate and/or has appropriate work experience.

otago.ac.nz/masters

Honours degrees

Most three-year bachelors' degrees have postgraduate honours degrees allied to them (e.g. Bachelor of Arts and Bachelor of Arts with Honours). They involve further papers in the subject of the first degree and a research report or dissertation.

A postgraduate honours degree must normally be completed in one academic year of full-time study. It is possible to undertake honours degrees in more than one subject, or to take a combined honours degree (involving a blend of papers from two subjects).

Entrance requirements

A postgraduate honours degree can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, or in a related discipline, and requires achievement at a high academic level.

Postgraduate diplomas

A postgraduate diploma provides a specialist postgraduate qualification and a pathway to research study, extending the knowledge gained in a bachelor's degree. It offers students structured courses and guidance, as well as the opportunity to undertake some independent research. Students are able to focus on a specific area of study while developing research skills.

A postgraduate diploma can usually be completed in one academic year of full-time study.

Entrance requirements

A postgraduate diploma can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, or in a related discipline, and requires achievement at a satisfactory academic level.

Postgraduate certificates

A postgraduate certificate is generally a six-month coursework qualification that recognises continuing professional development in the same area as the candidate's original degree. It can usually be completed in one semester of full-time study, or the equivalent in part-time study.

Entrance requirements

A postgraduate certificate can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree or in a related discipline.

Diploma for Graduates

The Diploma for Graduates is a one-year qualification open to graduates. Unlike a postgraduate diploma, which involves 400-level papers, the Diploma for Graduates typically

involves undergraduate papers (that is, papers at 100-, 200- and 300-level). The Diploma for Graduates comes in two forms. In its flexible form, the diploma is intended for graduates who wish to broaden their undergraduate background, and any combination of subjects that constitutes an academically feasible and justifiable programme of study is permitted, provided that the chosen combination includes enough points at 300-level. The endorsed form of the Diploma for Graduates identifies a subject of specialisation, and requires that papers be concentrated in that subject. Since the endorsed Diploma for Graduates is approximately equivalent to a new major subject, it is often used as a bridge to postgraduate study.

Entrance requirements

Candidates with a bachelor's degree or extensive training and experience in an appropriate field may apply.

DISTANCE LEARNING

The University teaches some courses by distance learning, allowing people located elsewhere to study. This is particularly convenient for working students who are already trying to balance home life and a full-time job with their study. Many distance-taught courses are available only within New Zealand, but some are available in Australia and beyond. Distance options are denoted by "DT" in the tables included on pages 52-71.

Please note that Immigration New Zealand will not normally grant a student visa for study in New Zealand where the intended programme of study is wholly delivered by distance mode and students are not required to attend classes on a regular basis at an Otago campus or designated centre.

TEACHING AND ASSESSMENT

The number of lectures and amount of academic contact time will depend on the course. Postgraduate study is more intensive than undergraduate study and requires more independent research. Assessment can be by thesis, examination and/or internal assessment, depending on the specific course being studied.

Scholarships

otago.ac.nz/scholarships

UNDERGRADUATE SCHOLARSHIPS

Undergraduate entrance scholarships are open to international students who/will have completed years 12 and 13 at a New Zealand secondary school. These scholarships are for students who have not been previously admitted to the University of Otago and who are planning to undertake their first year of undergraduate study.

	Value (\$NZ)	Duration (months)	Closing date
Academic Excellence	Up to 45,000	36	15 August 2016
Alumni-Appeal and Donna-Rose McKay	6,000	12	15 August 2016
Dux	Up to 6,000	12	15 August 2016
Leaders of Tomorrow	6,000	12	15 August 2016
Māori and Pacific Peoples'	10,000	12	15 August 2016
New Frontiers (Excellence)	2,500	12	March 2017
New Frontiers (Sustained Excellence)	5,000	12	March 2017
Performance	16,000	36	15 August 2016

Application procedure

Applications for entrance scholarships for 2017 will open on 1 July. Applications are made online. For full information visit:

otago.ac.nz/entrance-scholarships

\$15m

INTERNATIONAL STUDENTS
CAN APPLY FOR MORE
THAN \$15 MILLION WORTH
OF SCHOLARSHIPS

POSTGRADUATE SCHOLARSHIPS

The University offers a number of generous masters' awards and doctoral scholarships (for PhD and other doctoral-level study). These scholarships are awarded on the basis of academic merit, research ability (where applicable) and suitability within the department. No interview is required. Students already receiving a full scholarship covering tuition fees and living costs are not usually eligible.

	Tuition Fees	Value (\$NZ)	Duration (months)
Coursework Master's Scholarship	Partial (\$10,000)	10,000	-
International Master's Scholarship (Master's thesis)	Yes	13,000	12
Doctoral Scholarship	Yes	25,000	36
Pacific Island Doctoral Scholarship (Indigenous Pacific Island students)	Yes	25,000	36
Dr Sulaiman Daud 125th Jubilee Postgraduate Scholarship (Doctoral, Malaysian students)	Yes	25,000*	36
Special Health Research Scholarship (Doctoral)	Yes	25,000	36

* plus additional sundry costs (e.g. partial insurance costs, establishment allowance)

Application procedure

Applicants for University of Otago doctoral scholarships normally apply at the same time that they apply for international student admission to their chosen degree. Applications are considered on a continuous basis throughout the year. An invitation to apply for a scholarship is sent via eVision once the admission application is complete. Full details and application forms are available online.

For further information contact the Scholarships Office at:

scholarships@otago.ac.nz

New Zealand International Doctoral Research Scholarships (NZIDRS)

These scholarships, funded by the New Zealand Government through Education New Zealand, are open to all students who do not hold New Zealand or Australian residence and are awarded on the basis of academic excellence. Applications close on 15 July each year.

For further information, please see:

enz.govt.nz/how-we-work/scholarships

New Zealand Excellence Awards (NZEa for India)

The New Zealand Excellence Awards are partly funded by the New Zealand universities and Education New Zealand (ENZ) and provide partial scholarships of NZ\$5,000 to Indian students for selected programmes of study in 2017.

enz.govt.nz/our-services/scholarships/new-zealand-excellence-awards

New Zealand Aid Programme Scholarships

The New Zealand Government, through its New Zealand Aid Programme, provides scholarships to citizens of some developing countries to undertake tertiary level study in New Zealand. The purpose of the New Zealand Aid Programme's scholarship schemes is to enhance the skills, training and knowledge of selected individuals and thereby build capacity to contribute to the sustainable development of key areas in their home country, including the reduction of poverty.

For further information about these scholarships, please see:

aid.govt.nz/schols

Student Loans for US Citizens, US Nationals, Permanent Residents, or eligible non-citizens

The University is accredited to participate in the US Federal Student Aid Loan Program and eligible US citizens are able to apply for William D. Ford Federal Direct Loans to fund their study. The University of Otago's US Department of Education School Code is G21568. Students intending to apply for loans should first contact the US Financial Aid section of the International Office: us.financial.aid@otago.ac.nz.

Further information on individual student eligibility is available at:

otago.ac.nz/international/usfinancialaid/index.html

Business

otago.ac.nz/business

The Otago Business School is one of approximately 100 business schools worldwide to hold dual EQUIS (European Quality Improvement System) and US-based AACSB (Association to Advance Collegiate Schools of Business) accreditation status. This ensures our qualifications are globally portable and truly recognized around the world, and gives students confidence in choosing to study at Otago.

The School's strengths lie in teaching and research supported by a comprehensive range of subject disciplines including Accountancy, Economics, Entrepreneurship, Finance, Hospitality, Information Science, International Business, Management, Marketing and Tourism – all contributing to the School's national and international reputation.

Undergraduate studies

The undergraduate Bachelor of Commerce (BCom) is a three-year degree, which incorporates a “core” set of compulsory papers that provide a general overview to business education. The “core” complements the major area(s) of study, making students more employable due to their more comprehensive understanding of modern business practices.

Postgraduate options

Postgraduate study offers a number of options, ranging from diplomas through to coursework or research masters' and PhDs. Postgraduate qualifications are flexible and offer coursework or research-based study, or a mixture of both. Students enrolling in masters' or PhD degrees may apply for University scholarships.

Students can tailor their individual programme

to suit their educational or professional needs. The flexibility of the postgraduate qualifications ensures that students who come from diverse backgrounds can still attain the qualification they need.

Otago MBA

The School offers the Otago MBA which has established a worldwide reputation. The programme is offered full-time or part-time on campus or as an online qualification.

The on-campus programme includes an International Exchange option with top-ranked MBA programme partners around the world, as well as the opportunity to specialise in a range of elective papers from across the Business School, or online electives.

Students undertaking the Otago MBA receive the added support of a business mentor from the Dunedin business community for the duration of their study. Students meet regularly with mentors to guarantee a robust Kiwi experience as well as to integrate their learning and gain insight into business practice in New Zealand.

Why choose Business at Otago?

The University of Otago Business School is an Asia-Pacific leader in business education and research, and the School hosts its own Bloomberg Financial terminal – a resource second to none for up-to-the-minute financial data from around the globe.

The Visiting Executive Programme offers students regular opportunities to attend seminars presented by leading executives from organisations such as the Reserve Bank of New Zealand, Spark (Telecom), New Zealand Trade and Enterprise, and World Vision. Individual departments frequently host seminars on a wide range of topics – postgraduate students are encouraged to attend, participate and to develop interdisciplinary networks.

OTAGO BUSINESS SCHOOL
QUALIFICATIONS ARE GLOBALLY
PORTABLE AND RECOGNISED
AROUND THE WORLD

Student exchange

Collegiality with international business schools is promoted through the student exchange programme and international case study competitions. Students can choose from an extensive list of more than 50 world-class international business schools for their exchange experience.

Entrepreneurially minded?

Students with entrepreneurial flair are encouraged to enter the Audacious Student Business Challenge, which aims to help launch new businesses. Students have the opportunity to win prizes to help develop their businesses. For more information visit audacious.co.nz. All you need to enter is an idea!

The newly established Startup Space also provides an area where students with a business idea can work and meet fellow students and entrepreneurs, research their product or service, or listen to guest speakers.

World-class business education

The School values its international connections and is a member of several prestigious international education networks, including the Partnership in International Management (PIM), the Pacific Asian Consortium for International Business Education and Research (PACIBER), the European Foundation for Management Development (EFMD), the Association to Advance Collegiate Schools of Business (AACSB) and is a founding member of the Association of Asia Pacific Business Schools (AAPBS).

Vinh Le

Vietnam
Master of Business Data Science

“THE COURSE IS JUST WHAT I WANTED TOO. I LIKE THIS PLACE VERY MUCH AND WANT TO STAY HERE LONGER.”

When Vietnamese electrical engineering graduate Vinh Le wanted to upgrade his skills, he chose New Zealand and Otago for his master's.

He had been working in IT for 13 years as an engineer, business analyst and project manager, and had already studied business marketing on a Belgian distance-learning programme.

Vinh decided Otago's academic reputation and practical courses in Business Data Science held more attractions than Europe.

“I wanted to enrich my knowledge and studying abroad was a good option. The programme offered at Otago is world-class. It's as good as anything you'll find in Australia, Europe or the USA, and the living costs here are cheaper.”

There were other attractions too. “I'm a Lord of the Rings fan, and I plan to visit every filming location in New Zealand. It's a fascinating country with beautiful landscapes and a small population.

“The population in Ho Chi Minh City is 10 million, and it's hot and crowded and full of traffic jams. Coming to Otago is like heaven. I love the place.

“People are very friendly and supportive. When I first got here I was walking around campus with a map and students would come up and help me without me asking. I've been able to adapt to life here quickly.”

Academic life is working out well. “At first I was shocked at the volume of work to get my master's in a year but after a month I found I could keep up with the pace of learning.

“I'm impressed with the facilities, the hospitality of the staff and lecturers, and the support that is available.

“The course is just what I wanted too. I like this place very much and want to stay here longer.”

After graduating, Vinh hopes to find work in New Zealand and be able to move his wife and two sons to Otago. “It's hard being away from them, but we talk on Skype every day.”

THE UNIVERSITY OF OTAGO
HAS AN UNPARALLELED
REPUTATION IN THE FIELD
OF HEALTH SCIENCES

Health Sciences

otago.ac.nz/healthsciences

The University of Otago is New Zealand's longest-established Health Sciences' research and teaching institution. It is the only New Zealand university to offer a degree in Dentistry, and one of only two to offer degrees in Pharmacy, Medicine and Physiotherapy. Otago also offers the benefits of a national presence, with teaching hubs in numerous locations throughout New Zealand, and Schools of Medicine and Health Sciences located in Christchurch and Wellington, in addition to the Dunedin-based schools.

The Division of Health Sciences provides research-based undergraduate, postgraduate, professional and academic programmes of an international standard in the health and related biomedical sciences. In a typical year, there are more than 4,000 undergraduate students and 1,000 postgraduate students studying a wide variety of health-related programmes.

The strength of Health Sciences at Otago is reflected in the international reputation of the Division's research teams, the high standard of teaching and research facilities, and the wide range of programmes available. Otago graduates are employed around the world and many have risen to leadership positions at overseas universities and research institutions.

Undergraduate study

The Division of Health Sciences offers a range of professional degrees:

- Medicine (MB ChB, six years)
- Dental Surgery (BDS, five years)
- Medical Laboratory Science (BMLSc, four years)
- Pharmacy (BPharm, four years)
- Physiotherapy (BPhy, four years).

A limited number of places may be available for international students in the second year of each of the MB ChB, BDS, BMLSc, BPharm and BPhy degrees.

Prior to commencing study at the University of Otago, applicants are strongly advised to contact the International Office for guidance regarding entry opportunities to the professional programmes.

The Division also offers:

- Bachelor of Dental Technology (BDentTech, three years)
- Bachelor of Oral Health (BOH, three years)
- Bachelor of Biomedical Sciences (BBiomedSc, three years).

In addition, Otago’s strength in biomedical sciences offers numerous opportunities for study in the biological sciences. Specific programme options include the Bachelor of Biomedical Sciences (BBiomedSc, three years) and Bachelor of Science (BSc, three years) in one of the biological majors, including Anatomy, Biochemistry, Genetics, Microbiology and Immunology, Neuroscience, Pharmacology and Toxicology, and Physiology.

Health Sciences First Year

The Health Sciences First Year programme is the first year of study for students seeking entry into any one of the following degrees: MB ChB, BDS, BMLSc, BPharm and BPhyt*.

Entry into the second year of each of these degrees is competitive and selection is based upon the grades achieved in the Health Sciences First Year programme and, in some cases, a current UMAT result and an oral assessment.

It is important that students are familiar with the regulations for these programmes if wishing to compete for a place in one or more of them. Regulations for these programmes can be found at otago.ac.nz/healthsciences

It also provides suitable academic preparation for students wishing, as an alternative, to take a Bachelor of Biomedical Sciences or a Bachelor of Science in one of the biological majors.

The Health Sciences First Year programme comprises seven compulsory papers:

BIOC 192	Foundations of Biochemistry
CELS 191	Cell and Molecular Biology
CHEM 191	The Chemical Basis of Biology and Human Health
PUBH 192	Foundations of Epidemiology
HUBS 191	Human Body Systems I
HUBS 192	Human Body Systems II
PHSI 191	Biological Physics

**Health Sciences First Year should be your first year of tertiary study.*

See page 56 for programme information and fees.

Postgraduate study

Postgraduate students from a range of backgrounds choose to study Health Sciences at Otago.

Programmes are available in Dentistry, Medicine, Medical Sciences, Pharmacy, Physiotherapy, as well as in a wide range of health-related disciplines such as Bioethics, Occupational Health, Public Health, Mental Health, Sports Medicine and Health Informatics.

The range of Health Sciences’ postgraduate programmes available at the University enables the sharing of knowledge, information, staff and resources, and the cross-fertilisation of ideas and initiatives. Otago’s Health Sciences’ researchers are extremely successful in gaining research funding from external sources, many are international leaders in their fields and some hold executive posts in international professional bodies.

The success of the Division of Health Sciences’ collaboration can be illustrated by the number of multidisciplinary research activities it hosts.

Research strengths

- Addiction and Substance Abuse
- Ageing
- Asthma
- Autoimmune Diseases
- Biological Anthropology
- Bioengineering
- Bioethics
- Bioinformatics
- Brain Health
- Cancer Epidemiology and Control
- Cancer Biology and Genetics
- Cardiac Health and Disease
- Cardioendocrinology
- Chronic Diseases
- Clinical Pharmacy
- Developmental Genetics
- Diabetes and Obesity
- Drug Formulation and Delivery of Bioactives
- Free Radicals and Antioxidants
- Forensic Research
- Genetics and Genomics
- Gut Health
- Health Inequalities and Interventions
- Health Services Research
- Housing and Health Research

- Immunology and Immunity
- Indigenous Health Research
- Infectious Diseases
- Inflammation
- Injury Prevention
- International Health
- Kidney Health and Disease
- Lifecourse Research
- Māori Health Research
- Medical Education Research
- Memory and Learning
- Mental Health
- Microbiology and Microbial Molecular Genetics
- Neurodegenerative Disorders
- Neuroendocrinology
- Neuroscience
- Non-communicable Diseases
- Nursing Practice
- Obesity
- Occupational Health
- Oral Health and Disease
- Oral Microbiology
- Pacific Island Health Research
- Paediatrics
- Pharmacology and Toxicology
- Pharmacovigilance
- Pharmaceutical Sciences
- Plant Health and Disease
- Primary Health Care and Service Delivery
- Protein Structure and Function
- Proteomics
- Public Health
- Rehabilitation and Disability
- Reproduction and Development
- Rural Health
- Social and Economic Determinants of Health
- Social Pharmacy
- Suicide Prevention
- Sustainable Cities
- Tobacco Research
- Vaccine Development
- Vascular Biology
- Virology
- Women's Health

Specific staff research expertise can be found on the website:

otago.ac.nz/healthsciences/expertise

Neha Dhavale

India
PhD, Anatomy

“HAVING A GREAT MIX OF FRIENDS WORKING IN DIFFERENT FIELDS IN DUNEDIN HAS ENRICHED MY KNOWLEDGE.”

After completing a master's in Archaeology in India, Neha Dhavale wanted to do a PhD, but study options in her specialist field were limited.

“There are only a few Indian universities offering biological anthropology, so I looked for universities abroad. I am grateful to my then supervisor, who suggested contacting the University of Otago.”

Now Neha is finishing her PhD examining the skeletal remains of infants and children found at an archaeological site in Thailand.

Her research, based in the Department of Anatomy, is part of a broader theme investigating the biological consequences of the intensification of agriculture among prehistoric Southeast Asian populations.

Arriving in Dunedin from Mumbai, Neha experienced culture shock at first.

“Coming from one of the most densely populated cities in the world, I found Dunedin to be a much calmer and relaxed town. And the winter took me a while to adjust to.

“Initially I was a bit homesick, but soon overcame this after meeting lots of students from different parts of the world. Now I've become more patient and relaxed and I love Dunedin.”

The University was everything she wanted. “I love Otago. I have access to learning resources like the material housed in the Anatomy Museum, and I have also found the Student Learning Centre workshops for research students, on topics like thesis writing and conference presentations, very helpful.

“It was a bit overwhelming starting my research journey in a new country but things soon settled down and I have received excellent support from my supervisors and colleagues in the department.

“My research has exposed me to new experiences, travelling on my own in Thailand, learning the language and visiting sites. Also, having a great mix of friends working in different fields in Dunedin has enriched my knowledge.

“Studying at Otago has been a great experience and I will miss it once I finish my PhD.”

Humanities

otago.ac.nz/humanities

Humanities subjects at Otago cover two main areas of learning – the arts and the social sciences. The Humanities comprise those subjects that investigate the human world, how humans relate to their environment and, essentially, what it is to be human.

Humanities subjects explore areas as varied as:

- Human culture, history, beliefs and value systems
- How people communicate with each other, express themselves and represent their experience
- The analysis of human behaviour
- The nature of, and relationship between, social and environmental systems
- The way that environmental, social, economic and political processes shape our lives.

There are also departments which provide specialist professional education for lawyers, planners, ministers of religion, musicians, social workers and teachers.

Humanities subjects and departments at Otago enjoy an excellent reputation, both nationally and internationally. The 2016 *QS World University Rankings by Subjects* confirmed Otago's Division of Humanities has nine subject areas ranked in the top 100 institutions in the world. These are Archaeology, Anthropology, Development Studies, Education, English Literature and Language, Geography, History, Law and Performing Arts.

Undergraduate studies

In the Bachelor of Arts (BA) there are at least 50 Humanities subjects to choose from, ranging from Anthropology to Writing. Whatever subjects students choose, Humanities graduates are equipped with essential lifelong learning

skills such as critical thinking, flexibility and competence with language. Together with the knowledge of the human and natural world that the arts and social sciences impart, these skills prepare Humanities graduates for employment in a multitude of areas.

In addition to the BA, undergraduate degrees in Law, Music, Performing Arts, Social Work, Teaching and Theology are also offered.

Postgraduate studies

In a typical year, the Division of Humanities has more than 500 students enrolled for higher degrees by thesis (mainly PhD and Master of Arts) and a growing number of students studying towards specialised masters' degrees by coursework. All academic staff are active researchers and postgraduate students are matched with supervisors who are experts in their fields.

Postgraduate students are also able to benefit from close collaborative links with an extensive and diverse range of top universities and research institutes from around the world, with an opportunity to study abroad under expert research supervision.

Unique resources

For students intending to work on topics relating to New Zealand and the Pacific, the Division of Humanities has archaeological and fieldwork sites in New Zealand, the Pacific, South-East Asia and Papua New Guinea.

The Hocken Collections is one of the foremost historical research libraries in New Zealand, housing archives, manuscripts, books, pamphlets, newspapers, maps, periodicals, paintings, drawings, photographs, music and film.

Ample research opportunities are also provided by significant repositories of early books in the University's Central Library, including the de Beer Collection, the Brasch Collection and the Shoults Collection:

library.otago.ac.nz/SpecialCollections/

Unique opportunities are available at Otago for students in contemporary music and studio production.

Collaboration with the local and international music industries, and a state-of-the-art recording studio, provides students with opportunities to train as music industry professionals.

THE DIVISION OF HUMANITIES
ENJOYS CLOSE COLLABORATIVE
LINKS WITH LEADING RESEARCH
UNIVERSITIES AND INSTITUTES
AROUND THE WORLD

Graduate destinations

Graduates with masters and PhD degrees enjoy a wide range of employment destinations, irrespective of the particular subject in which they complete their research. Recent graduates have found employment as policy analysts, project managers, researchers, archivists, publicists, university lecturers, and in editorial roles across a broad spectrum of institutions and businesses – especially in government ministries and agencies.

Research strengths

Postgraduate study programmes are a major focus of the Humanities Division at the University of Otago. The division has a significant number of the top research departments in arts subjects in New Zealand universities.*

The Division has strengths in research across the range of disciplines in Humanities. Research areas range from New Zealand and Pacific Archaeology to the Philosophy of Science, from Educational Leadership to Glaciers and Climate Change.

Humanities has a number of formally recognised research centres, themes and clusters in areas of research strength. In addition, distinguished scholars in a wide range of disciplines are able to provide supervision in the areas of their current research. More information can be found at:

otago.ac.nz/humanities/research

*Confirmed by the results of the Performance-Based Research Fund appraisal conducted in 2012.

University of Otago Research Centres and Themes based in the Division of Humanities

- Centre for Research on Colonial Culture
- Centre for Sustainability
- Centre for Society, Governance and Science
- Performance of the Real
- Poutama Ara Rau (University-wide)

Humanities Research Clusters and Networks

- Asia-New Zealand research
- Children and young people as social actors
- Cultures, histories and identities in Visual Studies
- New developments in analytic philosophy
- Pacific studies
- Postcolonial studies network

Other Humanities Research Centres

- Centre for the Book
- Centre for Educational Leadership and Administration (CELA)
- Centre for Irish and Scottish Studies
- New Zealand Law Foundation Centre for Law and Policy in Emerging Technologies
- Legal Issues Centre
- Children's Issues Centre
- Centre for Theology and Public Issues
- National Centre for Peace and Conflict Studies

Specific staff research expertise can be found online:

otago.ac.nz/news/expertise.html

Coursework masters'

- Master of Emerging Technologies Law (METL)
- Master of Higher Education (MHEd)
- Master of Indigenous Studies (MIndS)
- Master of International Studies (MIntSt)
- Master of Peace and Conflict Studies (MPCS)
- Master of Planning (MPlan)
- Master of Politics (MPols)
- Master of Teaching and Learning (MTchgLn)

See page 66-67 for programme information and fees.

Sophie Wolstenholme

Jersey, Channel Islands
Bachelor of Arts, Psychology

“I CHOSE OTAGO OVER A UK UNIVERSITY BECAUSE THE DEGREE COURSES ARE MUCH MORE FLEXIBLE IN YOUR CHOICE OF SUBJECTS AND HAVE HIGHER CONTACT TEACHING HOURS.”

Sophie Wolstenholme has travelled halfway round the world, from Jersey in the Channel Islands, to study psychology in Dunedin.

“I love travelling and going to new places, and I thought New Zealand would suit me just perfectly. I really wanted to pursue psychology after studying it at school, and Otago’s psychology department is internationally renowned.

“I chose Otago over a UK university because the degree courses are much more flexible in your choice of subjects and have higher contact teaching hours.”

With support from her family, Sophie has now started her dream course.

“Psychology is the most interesting subject. It’s such a broad subject that can be applied to so many aspects of life. I love that there’s still so much we don’t know and that it’s always changing.

“I really enjoy all the lectures and labs, and I’ve been getting the grades I wanted.

“I’m also taking Spanish and anthropology. I love how each of the three subjects offers a different style of learning and assessment. Academically, Otago is definitely meeting my expectations.

“Socially, there’s a great student culture. My residential college is my home away from home and I’ve made some really great friends here. It would be hard to be unsociable because everyone is so friendly.

“The colleges also offer a lot of academic support and have plenty of activities so it’s easy to meet new people.”

Sophie knows that coming to Otago was the right decision.

“I’m quite independent and social so coming all this way hasn’t been too hard for me, especially with all the support from home. Although I miss Jersey, I do love it here and don’t regret my decision.”

Sciences

sciences.otago.ac.nz

The excellence and influence of a university's research is what lifts it above the ordinary. Research and science are inseparable – science marches forward through research and as it does, we understand more of the intricate physical and biological interactions of our planet's existence.

In the Division of Sciences there are many proven research leaders with such a passion for their work, creating an environment of excellence that attracts and inspires students. That research excellence leads to success in obtaining major contestable and commercial funding as well as developing international partnerships.

Programmes

The Division's programmes span the fundamental sciences, applied science, and multidisciplinary areas such as ecological and environmental sciences, genetics, forensics and neuroscience. All of these programmes are shaped by excellent research.

Otago's first-rate teaching and learning is very evident in postgraduate study, supervision and encouragement of students' research. We have superb laboratories and facilities for in situ fieldwork, including research stations and vessels, which meet – and often exceed – what's required at the cutting edge of knowledge creation.

Interdisciplinary studies

As well as single-discipline work, there are many opportunities for interdisciplinary study. These include areas such as active earth processes, ecology, lasers and applications, memory, polar environments, photonics and ultra-cold atoms, energy, ocean and climate change, and obesity. This interdisciplinarity spans academic divisions to deliver exciting intersections of research. Applied research centres add strength and diversity to the range of study available.

Why choose Science at Otago?

The flexibility and diversity of undergraduate and postgraduate qualifications on offer in the Division of Sciences lead to diverse job options. These include all types of education, technical and research positions in the private and public sectors, executive management, and entrepreneurial careers in business. The transferrable skills learned in sciences – communication, teamwork, initiative, problem solving, persistence and curiosity – are sought-after worldwide. Our graduates hold senior positions in all spheres of life and work.

Research strengths

Alpine ecosystems
 Atmospheric physics
 Behavioural processes
 Biopsychology
 Chemistry in biological systems
 Clothing and textile sciences
 Coastal marine primary production
 Cold atom physics, including Bose-Einstein condensation
 Computer graphics and vision
 Dynamics and the New Zealand plate boundary
 Energy management
 Environmental and ecological statistics
 Environmental chemistry
 Environmental physiology
 Freshwater ecology
 Functional molecular materials

Human perception, decision-making and information processing
 Marine mammal conservation
 Mathematical modelling
 Mathematics education
 Micronutrients in human nutrition and disease
 Neuromotor performance in health and disease
 Plant community structure
 Plant ecophysiology: physiology of plants in relation to their environment
 Plant virology
 Polar marine physics and modelling
 Polymer chemistry
 Psychopharmacology
 Sensory science
 Social perception and judgment
 Software engineering
 Supramolecular chemistry
 Telecommunications

The gold cycle and crustal processes
 Theory of computing
 Trace elements in human health and disease

otago.ac.nz/sciences/study/postgraduate/qualifications/index.html

Coco Liu

China
Bachelor of Science,
Chemistry and Mathematics

"I THINK I'VE
BECOME MORE
INDEPENDENT,
WHICH IS REALLY
IMPORTANT, AND
I HAVE BECOME
MORE OPEN TO A
NEW CULTURE."

If you ask Coco Liu what is different about her new life studying at the University of Otago her answer is simple: "Everything . . . everything."

After living in a city the size of Beijing, with 15 million people, the southern city of Dunedin must feel like a village.

She was drawn here by good reports she had read about the University's Division of Sciences, its equipment and the quality of its teaching.

"I like it here," she says. "It's quiet. It's small and it's really easy to concentrate on studying."

Even Dunedin's reputation for cold winters doesn't faze this conscientious student.

"I love the weather here, especially rainy days, which are a complete contrast to the hot dry summers and cold dry winters of Beijing."

Coco came to Otago in 2011 and studied English at the University's Language Centre for seven months before starting her foundation year.

For the last four years she has boarded privately with a Kiwi family, who treat her like one of their own children.

When she was learning English, they helped correct her spelling and grammar. They taught her to drive and she now has her own car, which gives her a great sense of freedom.

"I think I've become more independent, which is really important, and I have become more open to a new culture," she says. "In Chinese culture, we don't normally say 'no'. Now I can say 'no' and do what I want."

Coco swims almost every day at Dunedin's Olympic-size pool, regularly visits the gym and plays badminton with friends. Eventually she would like to become a high school teacher or perhaps continue postgraduate studies at Otago.

Services and facilities

Career Development Centre

The Career Development Centre provides expertise, information, seminars and advice on career opportunities, graduate recruitment and job-seeking strategies.

otago.ac.nz/careers

Childcare

The Otago University Childcare Association provides excellent early childhood education in high-standard purpose-built facilities. The OUCA operates four childcare centres, including a bilingual centre, for children from birth to five years.

Enquiries and bookings for placement should be made well in advance of arrival as places are limited.

otago.ac.nz/childcare

Disability Information and Support (DI&S)

DI&S provides learning support, advice, advocacy and information to students who have a disability, impairment, medical condition or injury.

DI&S offers support to international students. However, as with any other student enrolling at the University, it is important that you check in advance to ensure that the University is able to meet your specific requirements. You need to be sure that the University can provide you with the type and level of support you are used to. As there may be costs associated with some support services, it is important that you are aware of these before you commit to studying at Otago. Please contact us as early as possible if you are planning to study at the University.

otago.ac.nz/disabilities

Information Technology Services (ITS)

ITS staff provide support for the computers and internet-based teaching and communication programmes used throughout the University. Computer areas are located around the Dunedin campus and several are open 24 hours a day, seven days a week. Help and training in the use of the student IT resources is provided by the Student IT Services section of ITS.

otago.ac.nz/studentIT

International Office

The International Office is a focal point for international students at Otago. The Office provides information, support and advice to future and current international students and to students wishing to study overseas on exchange programmes. It runs on-campus orientation programmes for new international students, operates an international friendship network, and offers a student visa renewal service and assistance with insurance, and US Financial Aid.

All enquiries from prospective international students about application and admission should be directed to the International Office.

otago.ac.nz/international

International societies

There are more than 25 international societies affiliated with the Otago University Students' Association that provide a home away from home for international students. Peer support groups, cultural performances, traditional cuisine and sports make up some of the many activities that these groups offer. The societies provide fun, healthy, and constructive communities to ensure a well-balanced University lifestyle.

ousa.org.nz/recreation/clubs

Libraries

The University Library offers excellent facilities for study. The collection includes extensive print and electronic resources with full-text electronic journals and international databases accessible via the library website.

Collections are held in a number of facilities across campus, including the Central Library (Commerce and Humanities), Robertson Library (Education), Law, Health Sciences, Science Libraries and Hocken Collections (New Zealand and Pacific heritage material). The Central Library is located in the University's multi-award winning Information Services Building (ISB).

The Hocken is one of New Zealand's foremost research libraries and contains many rare historical publications of national and international significance, as well as manuscripts, pictures and photographs.

otago.ac.nz/library

Students' association

The Otago University Students' Association (OUSA) looks after the ultimate student experience for Otago students through a diverse range of events, support services and student media. If you've lost your wallet, need some help with budgeting or require advocacy and support, OUSA is the place to go. The OUSA Clubs and Societies Centre is home to free student breakfasts and \$3 lunches Monday to Friday. We're also the home base for over 100 clubs – from the Indian Students' Association to the United Nations Society, we've got them all. If you're keen to hear about what is happening on campus, have a listen to our radio station, Radio One 91FM, or check out our magazine, Critic – Te Arohi.

ousa.org.nz

Recreation at Otago

Unipol Recreation Services and the OUSA Clubs and Societies Centre provide a comprehensive programme to ensure students maintain a healthy, balanced and fun lifestyle while studying at Otago. There are many recreational opportunities on and off campus including courses, trips, group fitness classes, social sport, sports clubs and societies – there really is something for everyone!

Entry into the new Unipol Recreation Services at the University Plaza is free with a current student ID card. This fantastic facility includes weight and cardio studios and team sports areas where students and their friends can participate in casual sports such as basketball, table tennis and more. A range of equipment can also be hired for leisure activities beyond the facility.

The Otago University Students' Association Recreation Centre offers free or inexpensive facilities for everyone. In addition to being the base for the clubs and societies on campus and a venue for many of the recreation courses on offer, the Centre also provides a sauna, dance and exercise spaces, a commercial kitchen, pianos and meeting/study rooms.

The clubs and societies groups regularly host events that integrate cultures, beliefs, sports, political views, and various art forms from around the world. And, if the club you're looking for isn't covered, you can create it!

Part of the recreation calendar is the annual Blues and Golds Awards. These awards are a prestigious celebration of the sporting and cultural achievements of Otago students.

otago.ac.nz/recreation
unipol.co.nz
ousa.org.nz/main/recreation/

International students' representative

Students elect an International Students' Representative each year. Their role is to act as a link between international students, the University and OUSA.

Student Health Services

Student Health Services is situated on campus and provides medical, nursing, counselling and psychiatric advice and treatment for all international students enrolled at the University of Otago.

otago.ac.nz/studenthealth

Student Learning Centre

The Student Learning Centre offers a free service for enrolled undergraduate and postgraduate students. Assistance includes:

- Postgraduate and undergraduate workshops
- Individual consultations with learning advisers
- Postgraduate and undergraduate peer learning/support programmes including PASS (peer assisted study sessions), conference support groups, and peer writing support
- A Student Leadership Programme offering students opportunities to develop leadership skills through a range of volunteer and paid activities
- A Peer Support Programme, which includes opportunities for students whose second language is English to join a group to practise their "Kiwi" conversational English with native English speakers, and mentoring for first-year students
- Online study resources.

otago.ac.nz/slc

University Information Centre

The University Information Centre, located in the Information Services Building, provides a starting point for all enquiries about changing course, graduation and examinations.

otago.ac.nz/services/uic.html

Graduate Research School

The Graduate Research School has responsibility for leadership, oversight and policy advice in relation to doctoral degrees (including PhD), research masters' degrees and University scholarships and prizes, as well as responsibility for providing appropriate support and guidance to graduate research candidates and their supervisors. The Doctoral and Scholarships Office, within the Graduate Research School, manages and administers the doctoral and scholarships programme.

otago.ac.nz/research/graduate

Postgraduate supervisors

The University recognises the importance of the supervisor-student relationship. Supervisors provide strong support and mentorship, and our overall ratio of postgraduate students to academic leaders is better than 3:1, the highest of any New Zealand university. They induct and support graduate research students into the research culture, backed by strong departmental facilities. Regular professional development workshops are held for students and supervisors.

Pathways to study

University of Otago Language Centre (UOLC)

UOLC offers English language tuition for students and provides the ideal pathway to university study.

Programmes:

- General English
- English for Academic Purposes
- IELTS, TOEFL iBT
- English for International Communication with TOEIC
- Non-IELTS pathways to Foundation Year
- Non-IELTS pathways to undergraduate and postgraduate study through English for Otago
- English for Groups

The UOLC offers five levels of English tuition from elementary to advanced. Class sizes have an average of 12 students, with a maximum of 16 students. There are 23.5 hours of tuition each week.

University of Otago Foundation Year (UOFY)

The UOFY prepares students for undergraduate degrees at Otago and provides a university entry qualification for students seeking admission to undergraduate degrees at all other New Zealand universities. Successful students are guaranteed a place in most University of Otago first-year courses.

Academic streams:

- Arts
- Applied Science
- Business
- Health Sciences
- Life Science

Students are taught in lecture theatres and laboratories on campus ensuring they become confident and familiar with the University environment.

Foundation Year has three intakes per year in Dunedin (February, June and October) and one intake in Queenstown (March, Commerce/Arts only). Bridging courses are offered before each intake.

Student services

Students in the UOLC and the UOFY are offered full student support services, a comprehensive orientation and weekly activities.

A student ID card gives access to University of Otago resources including libraries, 24-hour computer suites, student health, clubs and societies, cafes, and provides discounts on shopping, entertainment and travel.

A homestay placement service arranges quality homestay accommodation for all students.

Further information, including tuition, homestay and other costs, can be viewed at:

otago.ac.nz/uolcfy

Accommodation

otago.ac.nz/accommodation

There is a wide range of accommodation options available for international students. When choosing, it is important to consider the kind of living environment you prefer; for example, do you prefer an independent lifestyle or living in a catered college?

UNDERGRADUATE OPTIONS

Residential colleges

Many students in their first year of university study choose to live in one of the University's undergraduate residential colleges:

Aquinas College (accepts under 18s)

Arana College

Carrington College

City College

Cumberland College

Hayward College

Knox College

St Margaret's College

Salmond College

Selwyn College

Studholme College

Te Rangi Hiroa College

Toroa College (accepts under 18s)

University College

Otago is proud of the first-class accommodation offered by its residential colleges. International students who are accepted for a college can also look forward to being active in the social, cultural and recreation programmes provided. All colleges are within walking distance of the main campus.

To apply for college accommodation for the February intake, you need to submit an application for accommodation in a residential college by 30 September to be considered in the first round of offers. Applications after this date will be placed on a waiting list and considered as places become available. For the second semester, it is preferred that applications are received before 1 June. Places are limited and we recommend that you apply to the Student Accommodation Centre as soon as you are able.

International students under the age of 18 when they start studying at the University of Otago can only apply to live in Toroa College, Aquinas College or homestay. These options are in accordance with the Code of Practice for the Pastoral Care of International Students.

Why a residential college?

- Colleges are fully catered – 3 meals, 7 days a week
- Provide regular tutorials
- Are led by mature experienced leaders
- Offer free laundry, and rooms are cleaned once a week
- Wifi is included
- Great way to make friends
- Cultural and sporting events organised throughout the year.

Colleges at a glance

Otago offers a unique range of world-class collegiate communities. Here's what you'll find, at a glance:

	Aquinas	Arana	Carrington	City	Cumberland	Hayward	Knox

POSTGRADUATE OPTIONS

Abbey College

Abbey College is New Zealand's only fully-catered residential college for postgraduate students and is unrivalled in the country. A former hotel complex, it is located within a few minutes' walk of all University facilities, the Dunedin Botanic Garden and the central city. The college comprises 75 rooms, many with ensuite bathrooms. There are also options for couples and students with disabilities.

The complex is spacious, safe and secure, with its operation overseen by an on-site Head of College. The college has its own dining room with full catering to residents. There are large common rooms and a reading room, a pleasant garden (Abbey Common), a spa pool and sauna. Car parking is also available.

Abbey College provides a supportive and friendly academic community environment allowing residents to focus on their postgraduate studies. Applications for Abbey College will be accepted throughout the year.

The following colleges accommodate both undergraduate and postgraduate students:

Arana College
(catered and self-catering options)

City College (catered only)

Knox College (catered only)

Salmond College (catered only)

Selwyn College
(catered and self-catering options)

Please note: College accommodation is not suitable for families.

UNDERGRADUATE AND POSTGRADUATE OPTIONS

University-managed flats and houses

Students who would like more independence can apply for a room in a University-managed flat. This is also the best option for single semester students. Most of these flats have a New Zealand "Kiwi Host" student. There is also a small number of flats available for postgraduate students with partners and/or families. In addition, a limited number of rooms are available for unaccompanied postgraduate students wishing to reside in a self-catered flat with other postgraduate students.

The flats are fully furnished and within easy walking distance of campus. The residential fee includes the cost of your room, electricity, internet, bed linen, University Flats community events and the services of the University Flats. In addition to this fee you will be responsible for the payment of food and other personal expenses. Single semester residential contracts are for 24 weeks.

To apply for accommodation in "Uni Flats" you must submit an online application. Whilst there is no close-off date, to be considered in the first round of placements your application should be received by:

- 1 December for the first semester; and
- 10 May for the second semester.

For further information see

otago.ac.nz/uniflats

The application process for University-managed accommodation

Places in all University-managed accommodation require an application form to be completed. We recommend that this is completed online through the University website otago.ac.nz

Postgraduate and single-semester students will be sent information about accommodation when they receive an Academic Offer of Place to study at the University of Otago. Admission to University-managed accommodation is usually restricted to applicants undertaking full-time study at the University of Otago.

If you are applying for a residential college and you are at school or left within the last two years, the "Confidential Reference Form" needs to be completed by your school and returned to the Student Accommodation Centre. This form is available on the Accommodation website. If you have not attended school in the last two years, please include with your application two character references from people who have supervised, or been senior to you in your current or most recent employment or studies.

Other options

If you intend to find your own long-term accommodation, the Student Accommodation Centre will assist you to find rental accommodation that will best suit your needs. Dunedin has a wide range of rental accommodation from historic houses to multi-unit, purpose-built complexes. It is recommended that you do not sign any contracts until you arrive in Dunedin. It will be important to book temporary accommodation for when you first arrive.

Temporary accommodation

If you plan to arrive before your permanent accommodation is available, it is important that you organise temporary accommodation in advance of arrival.

The Student Accommodation Centre provides a list of options including backpackers, bed and breakfasts, and motels that are close to the University.

Homestay options

Homestay offers an ideal opportunity for students to improve their English and learn more about the New Zealand way of life – a Kiwi experience. Students may wish to join in with family life or be as independent as they wish. Many lasting friendships have been made between students and their hosts. You will have your own bedroom with desk, lamp, linen, heater and bedroom furniture. You will be provided with breakfast and evening meals from Monday to Friday and three meals per day in the weekends. Homestay accommodation can be arranged by contacting:

University of Otago Language Centre and
Foundation Year
Tel 64 3 479 5710
Email uolcfy.accommodation@otago.ac.nz

Student Accommodation Centre services

- List of flats and houses, vacant rooms in flats
- List of temporary accommodation
- Sample budgets for flat living
- Free maps of campus and Dunedin areas
- Checklists for flat finders
- Flatting agreements
- Advice on your rights and responsibilities as a tenant
- Advice on standards and prices.

For further information about accommodation please contact:

Student Accommodation Centre
109 St David Street

otago.ac.nz/accommodation

Living costs for 2017

The table below provides an estimate of living costs in NZ\$ and is based on 2016 charging. The costs assume a single student on campus for a period of forty weeks (one academic year).

Actual accommodation costs will be supplied once you have been accepted for study at Otago.

	Residential College	Shared Flat
	NZ\$	NZ\$
Accommodation fee	13,794	–
Average rent (52 weeks @ \$140)	–	7,280
Food (40 weeks @ \$70)	–	2,800
Gas/electricity, internet (52 weeks)	–	1,200
Total for accommodation	13,794	11,280
Personal costs (40 weeks @ \$60)	2,400	2,400
Entertainment (40 weeks @ \$40)	1,600	1,600
Medical and travel insurance	589	589
Total	18,383	15,869

NOTES:

1. Residential college contracts are normally for 38 weeks. Some colleges may charge a higher fee than the fee listed in the table.
2. In addition to the accommodation fee, the residential colleges charge a small amenity fee.
3. Food costs reflect the purchase of some lunches and takeaways. If all cooking is done in the flat they could be reduced.
4. Personal costs vary considerably depending on lifestyle. The estimate represents a restrained style of living.
5. This estimated budget does not include travel costs or any significant personal expenditure items.

NEW ZEALAND IS A LAND OF GREAT
NATURAL BEAUTY, AND IT IS ALSO
ONE OF THE WORLD'S MOST EXCITING
ADVENTURE PLAYGROUNDS

New Zealand Aotearoa

Comparable in physical size to Japan or Great Britain, New Zealand has a population of over four million people, making it one of the least crowded countries in the world. It is a land of great natural beauty, and it is also one of the world's most exciting adventure playgrounds.

New Zealand / Aotearoa was originally settled by Māori about 1,000 years ago, followed by waves of European immigration during the past two centuries. Today the country maintains a diverse and dynamic multicultural emphasis, enhanced by the growing number of people from the Pacific Islands and Asia who have also made New Zealand their home in recent years.

New Zealanders are friendly people who, in spite of (or perhaps because of) the country's geographical location and relatively small

population, have earned a reputation for being both enterprising and innovative. They welcome international visitors and have a wide range of interests, from the arts to outdoor and sporting pursuits. New Zealanders love their sport and are good at it. Swimming, walking, biking, hiking, boating and fishing are all easily accessible, as are many sporting codes such as rugby, soccer, tennis, netball, basketball, golf, squash and hockey. Those who are more adventurous enjoy surfing, white-water rafting, jet boating and bungee jumping, while in the winter months the country's many ski fields attract skiers and snowboarders from across New Zealand and from afar.

The New Zealand economy is broadly-based. It is a major exporter of primary products, while manufacturing, information technology,

biological and medical research, education and tourism also play vital economic roles. There is a growing focus on ecotourism ventures, the wine industry, fashion design and a flourishing film industry that is gaining wide international recognition. The New Zealand dollar is a stable currency offering visitors a favourable exchange rate. All goods and services are subject to a 15 per cent goods and services tax (included in the display price) and all major credit cards can be used.

Find out more about New Zealand at:

www.newzealand.com

1. Dunedin

Dunedin is an excellent base from which to explore some of New Zealand's world-renowned destinations of immense natural beauty.

2. The Catlins

The Catlins is an area of great contrasts and natural beauty – from magnificent coastal cliffs and long sweeping beaches, to rainforests, hidden waterfalls and rolling farmland.

Photograph by AJ Hackett Bungy

3. Queenstown

Queenstown, the birthplace of bungy, is known as the Adventure Sports Capital of the World. The stunningly beautiful gorges and lakeside environment provide the perfect setting for skydiving, canyon swinging, jet boating and white-water rafting. This is also the Southern Hemisphere's top ski resort area and has great nightlife once the sun goes down.

Photograph by Vaughan Brookfield

4. Fiordland

Fiordland is one of the most dramatic and beautiful parts of New Zealand and has three of New Zealand's "Great Walks" – the Milford, Kepler and Routeburn Tracks.

Photograph by Fraser Gunn

5. Aoraki Mount Cook

Aoraki Mount Cook National Park is home to New Zealand's highest mountain and longest glacier. Visitors come here to hike, climb, cycle, paddle among icebergs in glacial lakes, or sit and soak up the spectacular views.

Dunedin and Otago

A COMMITMENT TO
EDUCATION CONTINUES TO
BE ONE OF DUNEDIN'S MOST
IMPRESSIONABLE QUALITIES

The southernmost of New Zealand's main centres and the largest city in the province of Otago, Dunedin holds a special place in the hearts of many, and not just those who live here.

Although relatively small in size, it boasts many natural attractions as well as the facilities usually offered only by much larger cities.

Settled by the Scottish in 1848, Dunedin grew rapidly with the discovery of gold in the Otago hinterland and became, for a while, the commercial centre of New Zealand. During this time, many of New Zealand's most beautiful buildings were constructed and, with the establishment of the University of Otago in 1869, the foundations were laid for a strong tradition in education.

The central city streets are lined with restaurants, bars and cafes. Modern shopping malls trade alongside boutiques, galleries, and weekly craft and farmers' markets. The fashion industry is particularly vibrant with several of New Zealand's leading designers based in the city.

Dunedin is also home to New Zealand's newest, largest and most versatile arena – the Forsyth Barr Stadium at University Plaza. An architectural icon for the city, the stadium hosts major sporting events, concerts, festivals and more.

Temperatures range from an average 14 – 24 degrees Celsius in the summer (December – February) and from 5 – 13 degrees Celsius in the winter (June – August), so outdoor activities can be enjoyed year-round. There are more than

150 walking tracks in the Dunedin environs, four championship golf courses and many other sporting facilities which are all easily accessible. The long natural harbour is favoured for watersports and St Clair beach is considered one of New Zealand's best for surfing.

Dunedin is encircled by a "Town Belt" of native bush and trees and its coastline is home to colonies of yellow-eyed penguins, New Zealand fur seals and the world's only mainland breeding colony of the Royal albatross. Just a few hours' drive out of the city are some of New Zealand's most spectacular natural attractions – rugged mountains, deep fiords, clear blue lakes – including the internationally-known resort towns of Queenstown and Wanaka, famed for their ski fields and burgeoning wine industry.

Find out more about Dunedin at:

DunedinNZ.com

dunedin
www.DunedinNZ.com

All distances are from the University area where most students reside. All distances are approximate and based on driving.

Dunedin events

Dunedin offers a full calendar of annual events and festivals including:

- Scottish Week
- Fringe and Heritage Festivals
- ID Dunedin Fashion Week
- Regent 24-hour Book Sale
- University Capping Show
- Dunedin Midwinter Carnival
- International Science Festival
- Cadbury Chocolate Carnival
- International Film Festival.

Things to do

- Surf at St Clair Beach
- Fish for salmon in the Otago Harbour
- Visit New Zealand's only castle, Larnach Castle
- Go on a Speight's Brewery Heritage Tour
- Watch rugby at Forsyth Barr Stadium
- Enjoy gourmet foods from the Otago Farmers' Market
- Mountain-bike around the Dunedin hills
- Go skiing in Central Otago
- See yellow-eyed penguins and Royal Albatross on the Otago Peninsula
- Buy cutting-edge locally-designed clothes
- Walk up the steepest street in the world ...

Essential information for international students

Code of Practice

The University of Otago has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Ministry of Education. Copies of the code are available on request from the University of Otago or from the New Zealand Ministry of Education website at:

minedu.govt.nz

Smoke-free campus

The University's Dunedin campus is completely smoke-free. This enhances the outstanding campus experience that the University offers its staff and students and is consistent with its mission statement, which sets out Otago's aim of promoting individuals' development and wellbeing.

Student visas

You must apply for a student visa to cover the period you intend to study in New Zealand. Full details on the reporting requirements are available from Immigration New Zealand and can be viewed at:

immigration.govt.nz/study

If you bring your spouse/partner and/or children with you to New Zealand, they will need to apply for their appropriate visa category based on their circumstances.

Note that dependants of international students are required to pay international fees to attend New Zealand primary and secondary schools or tertiary institutions.

However, the dependants of PhD students are treated as New Zealand domestic students for the purpose of fee payment at New Zealand primary and secondary schools. You are advised to check the cost of schooling before accepting a place at the University of Otago if you will be accompanied by school-aged children.

Work rights

Under certain conditions international students are able to work part-time (up to 20 hours per week) during the academic year or full-time (during scheduled University vacations). International students who are enrolled in research masters' or doctoral programmes have no restrictions on the hours they can work.

On completion of your Otago degree or diploma you may apply for a 12-month Post-Study Work Visa (open) to allow you to look for work. If you find employment you can apply for a Post-Study Work Visa (employer assisted) which allows you to gain work experience for two years (or three years if work experience is required as part of a professional registration).

As special conditions can apply, please check your eligibility with Immigration New Zealand or view their website:

immigration.govt.nz/studytowork

Eligibility for health services

Most international students are not entitled to publicly-funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly-funded health services are available through the Ministry of Health, and can be viewed on their website at:

moh.govt.nz

Accident insurance

The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website at:

acc.co.nz

Medical and travel insurance

It is compulsory for international students to have comprehensive medical and travel insurance while studying in New Zealand. Enrolment at Otago is conditional on showing evidence of comprehensive medical and travel cover. Current instructions and advice on how to obtain adequate cover can be found on the Otago website:

otago.ac.nz/international/healthcare.html

Representative offices

The University has representatives in many countries around the world. A full listing can be obtained from the University's website:

otago.ac.nz/international/agents

Work Ready Programme

The Work Ready Programme is a free, extracurricular programme that provides tertiary international students with the confidence, knowledge and experience they require for a successful job search in New Zealand. The programme facilitates a number of workshops, seminars and events that bring together students and local employers to ensure practical experience in the job-seeking process and to increase each student's local network. The programme is a joint initiative between Study Dunedin, the University of Otago and the Otago Polytechnic.

getworkready.co.nz

Otago Global Student Exchange

The University of Otago has formal exchange agreements with many institutions worldwide, allowing for reciprocal exchange of students.

Further information is available at:

otago.ac.nz/study/studentexchange

If you are enrolled at an institution listed below, please contact your home institution's international office for further information on selection procedures.

If your university does not have an exchange agreement with the University of Otago, you are welcome to apply as a Study Abroad student:

Application

This section contains entrance, application and cost information for international students. International students include:

- ~ all students who require student visas to study in New Zealand
- ~ all individuals on New Zealand work visas enrolling for part-time study
- ~ all students, other than New Zealand citizens, enrolled in distance-taught programmes and resident outside New Zealand.

All students in the above categories should direct application enquiries to:

International Office
University of Otago
PO Box 56
Dunedin 9054
New Zealand
Tel 64 3 479 8080
Email international.enquiries@otago.ac.nz
Website otago.ac.nz/international

If you have residency or citizenship of Australia and are seeking to study on campus in New Zealand, please browse the University's website for further information: otago.ac.nz/study or email: university@otago.ac.nz

Entrance requirements

UNDERGRADUATE ENTRANCE REQUIREMENTS

To be eligible for entry to undergraduate programmes all students must hold qualifications that are acceptable to the University of Otago. In New Zealand, university entrance is normally gained through the New Zealand National Certificate of Educational Achievement (NCEA). The University recognises many other qualifications as equivalent to the New Zealand qualification for entrance and some of these are listed below.

A. INTERNATIONAL QUALIFICATIONS

African, Middle East, South American countries	One year of successful study at a recognised institution of university standing.
Australia	Australian Year 12 qualification with an appropriate ranking score (see Grade Requirements table on page 43).
Bangladesh	One year of successful study at a recognised institution of university standing.
Canada	Canadian High School Graduation with a minimum overall grade average of 70%. Specific requirements may vary from Province to Province. Ontario Secondary School Diploma with a minimum average of 70% in six subjects in Grade 12 (see Grade Requirements table on page 43).
China	Senior High School graduation and one year of successful study at a recognised institution of university standing; or Senior High School graduation and completion of a diploma with high passing grades at a recognised institute or university. Students with the requisite scores in Gaokao may be given direct entry to bachelor degree programmes.
Denmark	Studentereksamen (Gymnasium, HHX – Højere Handeleksamen, HTX – Højere Teknisk Eksamen) or Højere Forberedelseseksamen.
Fiji	Minimum of 270/400 (including English) in the Year 13 Certificate Examination (see Grade Requirements table on page 43).
France	Baccalauréat Général.
Germany	Abitur/Zeugnis der Allgemeine Hochschulreife.
Hong Kong	Completion of the Hong Kong Diploma of Secondary Education (HKDSE) with achievement at Level 4 or higher in English and at least two elective subjects, and Level 3 or higher in two other subjects (excluding Chinese language).
Hungary	Érettségi.
India	One year of successful study at a recognised institution of university standing; or a minimum overall average of 75% in the Indian School Certificate or the All-India Senior School Certificate with a minimum of 70% in English (see Grade Requirements table on page 43).
Indonesia	One year of successful study at a recognised institution of university standing.
Iran	One year of successful study at a recognised institution of university standing.
Israel	Bagrut (Matriculation) or Mechina.
Japan	One year of successful study at a recognised institution of university standing; or completion of a junior college diploma of two or three years' duration (for admission to general degrees only).

Malaysia	Minimum of three STPM “Principal” level subjects with appropriate grades (see Grade Requirements table on page 43). All passes must be gained in one sitting. A maximum of 15 points over six academic subjects, including one of Advanced Mathematics, Physics or Chemistry, in the Senior Middle III Examination (UEC) of the Malaysian Independent Chinese Secondary Schools System.
Netherlands	VWO-Gymnasium A or B; VWO-Atheneum A or B.
Norway	Vitnemål fra den Videregående Skole with appropriate grades (see Grade Requirements table on page 43).
Pakistan	One year of successful study at a recognised institution of university standing.
Philippines	One year of successful study at a recognised institution of university standing.
Samoa	A minimum of B3 (60%) average over 8 papers (including English A) in the University Preparatory Year of the National University of Samoa.
Singapore	Passes at Advanced Level with appropriate grades (see Grade Requirements table on page 43).
South Africa	Completion of the National Senior Certificate (NSC) with appropriate grades.
South Korea	Completion of High School Leaving Certificate plus one year’s successful study at a recognised institution of university standing, with good passing grades.
Sri Lanka	A minimum of three Sri Lankan Advanced Level subjects taken at one sitting with appropriate grades (see Grade Requirements table on page 43).
Sweden	Slutbetyg Från Gymnasieskolan with grades of VG or MVG.
Taiwan	One year of successful study at a recognised institution of university standing.
Thailand	One year of successful study at a recognised institution of university standing.
United Kingdom	Three passes at Advanced Level taken at one sitting with appropriate grades (see Grade Requirements table on page 43). In Scotland, appropriate passes at Higher Level are acceptable. BTEC National Diploma at Level 3 with appropriate passes will be considered on a case-by-case basis.
USA	High School Graduation Diploma with minimum B grade average and appropriate SAT Reasoning Test scores or a minimum ACT composite score of 24.
Vietnam	One year of successful study at a recognised institution of university standing.
Worldwide	International Baccalaureate

The minimum requirement for students from many countries not listed is the completion of a high school qualification plus satisfactory completion of one year’s study at an approved tertiary institution.

Entry requirements are constantly reviewed and the University reserves the right to amend the above requirements at any time.

	8	2.7	70	26	75%	75%	270	3.5	74	6.5
	8	2.7	70	26	75%	75%	270	3.5	74	6.5

Entry is competitive to the first year. Attainment of the minimum grade requirement does not guarantee that an Offer of Place will be made.

* These programmes have a limited number of places from the second year of University study. Admission to the second year requires satisfactory completion of an intermediate year. The grades listed are achievement levels for students entering the first year programme. Achievement of the minimum grade requirement does not guarantee that students will be competitive in entry to second year classes.

^ It is recommended that applicants have taken Chemistry and Physics as part of their matriculation/foundation study.

** Additional entry criteria and an interview may be required for admission.

Explanation of qualification and grades

A-Levels	<p>All countries except Singapore. The numerical scores are normally calculated on the best three A-Level principal subjects (excluding the General Paper) taken at one sitting, or two A-Level passes with two A-Level Subsidiary passes at one sitting.</p> <p>(i) Scores for the Advanced levels are calculated on the basis that: A = 5, B = 4, C = 3, D = 2, E = 1</p> <p>(ii) Scores for the Advanced Subsidiary level results are calculated on the basis that: A = 2.5, B = 2, C = 1.5, D = 1, E = 0.5</p>
Singapore	Same as above except that the numerical scores are normally calculated on three H2 Level academic subjects taken at one sitting; or a minimum two H2 Level academic subjects taken at one sitting and two appropriate H1 Level academic subjects.
STPM	<p>Sijil Tinggi Persekolahan Malaysia</p> <p>The grade point average is normally calculated on the best three STPM principal subjects (excluding the General Paper) taken at one sitting: A = 4, A- = 3.67, B+ = 3.33, B = 3.0, B- = 2.67, C+ = 2.33, C = 2.0, C- = 1.67, D+ = 1.33, D = 1.0.</p>
Ontario OSSD	Ontario Secondary School Diploma. The score is calculated as an average of six Grade 12 University Preparation (4U) Courses or University/College Preparation (4M) Courses.
IB	International Baccalaureate
India	<p>All India Senior School Examination (CBSE)</p> <p>Indian School Certificate Examination (CISCE)</p> <p>The scores are calculated on the best four academic subjects excluding local languages and non-academic subjects. 80% in Chemistry is recommended for admission to first year Otago Chemistry papers.</p>
Fiji Year 13 Certificate	<p>The score represents the total of the best three academic subjects plus English.</p> <p>No subject should be below 50%. 70% in Chemistry is recommended for admission to first year Otago Chemistry papers.</p>
Norway	Vitnemål fra den Videregående Skole (Certificate of Upper Secondary Education)
ATAR	Australian Tertiary Admission Rank
Otago Foundation Year	<p>University of Otago Foundation Studies Certificate</p> <p>In addition to achieving the required Grade Point Average (GPA) students must meet a specific English grade requirement. For full details please refer to the University of Otago Foundation Year website: otago.ac.nz/uolcfy</p>

B. INTERNATIONAL STUDENTS STUDYING IN NEW ZEALAND SECONDARY SCHOOLS – NCEA AND CIE

I) NCEA ENTRANCE REQUIREMENTS

NCEA is the New Zealand National Certificate of Educational Achievement. In 2017, you will be qualified for entrance to the University of Otago if you have obtained:

- NCEA Level 3, and
- 14 credits at Level 3 or higher in each of three subjects from an approved list.

You must also meet literacy and numeracy requirements:

- Literacy: 10 credits at Level 2 or above in standards from the specified list, with at least 5 credits in Reading and 5 credits in Writing
- Numeracy: 10 credits at Level 1 or above, made up of
 - achievement standards – specified achievement standards available through a range of subjects, or
 - unit standards – package of three numeracy unit standards (26623, 26626, 26627 – all three required).

Note that if you are an NCEA student, only the NCEA literacy requirement above will be acceptable. You cannot use IELTS, TOEFL or similar tests to replace the NCEA literacy requirement.

Applicants for Physical Education and second-year Law will be assessed on a case-by-case basis. Applicants for the Health Sciences First Year course are strongly recommended to have achieved at a much higher level than the minimum standards quoted above.

If you are applying to the University of Otago using NCEA as your method of admission you do not need to supply your forecast results with your application form.

Final NCEA examination results will be automatically supplied to the University of Otago in mid-January.

II) CIE ENTRANCE REQUIREMENTS (FROM NEW ZEALAND SCHOOLS)

Cambridge International Examinations (CIE) are offered in some New Zealand secondary schools. In 2017 you will qualify for entrance to the University of Otago if you have:

- a minimum of 120 points on the UCAS Tariff* at A or AS level other than the General Paper, including at least three different syllabus groups (other than Thinking Skills) in which no grade is lower than D
- an E grade or better in any one of AS English Language, AS Literature in English or AS Language and Literature in English and a D grade or better in IGCSE or GCSE Mathematics.

Note: You cannot use results from tests such as IELTS or TOEFL to satisfy literacy requirements.

A candidate may also fulfil the literacy and/or numeracy requirements through appropriate NCEA credits as detailed above.

Applicants for Physical Education, Law and Teaching will be assessed on a case-by-case basis. Applicants for the Health Sciences First Year course are strongly recommended to have achieved at a much higher level than the minimum standards quoted above.

* The UCAS tariff may be found at ucas.ac.uk/candq/tariff

For more information see:

otago.ac.nz/study/entrance/otago031475.html

C. INTERNATIONAL STUDENTS STUDYING IN THE UNIVERSITY OF OTAGO FOUNDATION YEAR

If you do not hold an acceptable qualification for undergraduate admission, you may qualify for admission to the University by completing the University of Otago Foundation Year Certificate. More detailed information can be found on page 26 of this prospectus and on the Foundation Year website:

otago.ac.nz/uolcfy

Grade requirements for entry to specific degree programmes are detailed on page 43.

Admission to undergraduate Health Science professional programmes

At the time of printing it was not possible to confirm the number and availability of places for international students in the second year of the following Health Science professional programmes in 2018: Bachelor of Dental Surgery, Bachelor of Pharmacy, Bachelor of Physiotherapy, and Bachelor of Medical Laboratory Science. Intending applicants for the 2017 Health Sciences First Year Course are advised to gain up-to-date information by browsing the University's website at:

otago.ac.nz/international

Students who have already undertaken tertiary study cannot normally apply for the Health Sciences First Year.

Postgraduate entrance requirements

General guidelines on admission to postgraduate programmes can be found on pages 8-9. In addition, specific requirements for individual programmes may be listed on pages 52-71 of this prospectus.

English language requirements

All courses at the University of Otago are taught and examined in English. If your first language is not English, you must provide evidence of a satisfactory level of English language proficiency. You should include with your application a certified statement of results from an accepted English language test that has been taken within two years of the commencement of your proposed course.

UNDERGRADUATE

The minimum requirements for undergraduate study are:

a) International Tests

- IELTS score of 6.0 in the academic module (with no individual band below 6.0)
- Paper-based TOEFL score of 550 (TWE 4.5)
- Internet-based TOEFL score of 80 (writing 20)
- Cambridge Certificate in Advanced English (CAE) – overall score of 176 (with no individual band below 169)
- Cambridge Certificate of Proficiency in English (CPE) overall score of 176 (with no individual band below 169)
- GCE A and AS English Language, Literature in English, Language and Literature in English – Grade C or higher
- GCE A level General Paper (English) – Grade C or higher
- International Baccalaureate – English at Higher or Standard level in Language A: literature, Language A: language and literature, or at Higher Level in Language B
- Pearson Test of English (PTE) Academic – Overall score of 58 with no communicative skills score below 50

b) University of Otago Language Centre

- 'English for Otago', English for Undergraduate Academic Purposes (EUAP) – Grade C or higher

c) Denmark

- A minimum GPA of 6 in A-level English or a minimum GPA of 9 in B-level English when graduating from Upper Secondary School Diploma

d) Fiji

- Year 13 Certificate English score of 50% or higher

e) Germany

- B or higher in each of the four components of the University English Language Proficiency test from the English department of the home institution, or B or higher in the old DAAD test, or C1 or B2 overall in the new DAAD test

f) Hong Kong

- Level 4 or better in English language in the Hong Kong Diploma of Secondary Education (HKDSE)

g) India

- 70% in English for the All India Senior School Certificate (CBSE) or the Indian School Certificate (CISCE)

h) Malaysia

- GCE 'O' Level English 1119 – Grade B4 or higher

i) Netherlands

- Grade 7 in the VWO-Gymnasium or the VWO-Atheneum A or B

j) New Zealand

- NCEA and CIE English guidelines can be found on page 45.

k) Norway

- Grade of 4.0 or higher in English in the student's final year of studying high school English in the Vitnemål fra den Videregående Skole

l) Samoa

- A score of B3 (60%) in English A in the University Foundation Certificate of the National University of Samoa

m) Singapore

- GCE 'O' Level English – Grade C or higher or the General Paper H1 level – Grade C or higher

n) Sweden

- A minimum grade of C (VG) in English 5 & 6 (English A & B) in the Slutbetyg Från Gymnasieskolan.

Some programmes require higher levels of achievement than the minimum requirements listed above.

POSTGRADUATE

The minimum requirements for postgraduate study are:

- Cambridge Certificate of Proficiency in English (CPE) – minimum of 176
- Cambridge Certificate of Proficiency in English (CAE) – minimum of 176
- IELTS score of 6.5 in the academic module (with no individual band below 6.0)
- Internet-based TOEFL score of 95 with a minimum writing score of 22
- Paper-based TOEFL score of 587 (TWE 4.5)
- Pearson Test of English (PTE) Academic – Overall score of 64 with no communicative skills score below 57
- University of Otago Language Centre 'English for Otago', English for Postgraduate Academic Purposes (EPAP) – Grade C or higher

Some programmes require higher levels of achievement than the minimum requirements listed above. Please refer to otago.ac.nz/international/postgraduate for further details.

Students enrolling in courses leading to the Diploma for Graduates (regardless of content or endorsement) must meet the standard postgraduate English requirements above.

ENGLISH LANGUAGE PREPARATION

If your English proficiency does not yet meet the required standard you may take pre-session courses in English at the University of Otago Language Centre (UOLC):

otago.ac.nz/uolcfy

The University of Otago TOEFL institution code is 9483.

How to apply

Follow this simple application process:

- 1 **CHOOSE YOUR PROGRAMME**
Make sure the programme suits your interests, skills and career goals. Pages 52-71 list the University's undergraduate and postgraduate programmes across the four Divisions or you can visit otago.ac.nz/international. Please check the programme information on pages 52-71 for details on relevant intakes for programmes.
- 2 **CHECK YOUR PROGRAMME ENTRY REQUIREMENTS**
Before applying to the University of Otago make sure you are eligible for entry and meet the English language requirements. See pages 60-61 and page 45 of this prospectus or visit otago.ac.nz/international
- 3 **SUBMIT YOUR APPLICATION ONLINE**
Go online to complete an application at otago.ac.nz. The University operates an online application and enrolment system called eVision. eVision allows you to apply online and supply relevant documentation as part of the online process. You will be guided through the process as you go.
- 4 **APPLICATION OUTCOME**
Once you submit your application online you will receive an application receipt by email. This will contain an ID number and you can track your application through your student portal. You will be advised of the outcome of your application via email and, if accepted, will be sent a conditional offer or unconditional Offer of Place. If you are receiving assistance with your application, your nominated representative will also receive a copy of the outcome.
If your application for undergraduate degree study is unsuccessful or you have a conditional Offer on English, you may wish to contact University of Otago's Language Centre and Foundation Year for further information on pathway study options. See page 26 of this prospectus for more details.
- 5 **ACCEPTANCE**
Once you have accepted your Offer of Place you can:
Apply for Accommodation: Places in all University managed accommodation require an online application form. See pages 27-30 within this Prospectus for more details.
Pay your fees: Information on how to pay tuition fees is available at: otago.ac.nz/international/int_paying_fees.html
Start your Student Visa application: A good place to get information on the student visa process is here: nzreadyimmigration.govt.nz
- 6 **COURSE ENROLMENT**
Paper selection, course approval and declaration are all online through your student portal.
- 7 **PREPARE FOR ARRIVAL**
Book your airport shuttle and make sure you are on campus in time for the international orientation. Information for students who have accepted their offer can be found at: otago.ac.nz/international/internationalprearrivalinfo.html

DEADLINE DATES

You are encouraged to apply as early as possible in order to be sure of a place in your chosen course, and for the University to be able to assist with your accommodation arrangements well in advance of your arrival.

First semester (February)

Applications close 31 October but late applications, not requiring evaluation for credit, may be considered until 1 December.

Second semester (July)

Applications close 30 April.

Summer School (January)

Applications close 31 October.

Some programmes will require the completion of additional forms or the supply of additional documentation. You will be informed about these requirements as you go through the application process.

APPOINTING AN AGENT

If you are submitting your application through an agent, you are advised to check before submission that the agent is an authorised agent of the University of Otago. A full list of authorised University agents can be found on the University's website:

otago.ac.nz/international/agents

Applications submitted through non-authorised agents will not normally be processed.

PROCESSING TIMES

All applications will be acknowledged and assessed for eligibility. In addition, applications for PhD study will be assessed by the Graduate Research Committee.

The application processing time can be up to:

- two weeks for undergraduate programmes not requiring credit evaluation
- five weeks for undergraduate coursework programmes requiring credit evaluation
- three to six weeks for postgraduate coursework programmes
- two months for programmes that are research only.

Application processing times can be affected by failure to provide all required documentation. Successful applicants will be sent a conditional or unconditional Offer of Place.

Important application information

A. QUALIFICATION EVALUATION

If you are applying for study and have partially or fully completed tertiary qualifications from countries or territories other than those listed below, you need to provide an Educational Credentials Evaluation (ECE):

All member countries of the European Union
Australia
Canada
Fiji
Hong Kong
Japan
Malaysia
Norway
Singapore
South Africa
South Korea
Switzerland
United Kingdom
United States of America

Students who lodge their applications through one of the University's approved agents may be eligible for an exemption from an Education Credentials Evaluation (ECE). In order to be eligible for this exemption, the University requires agents to provide additional information to assist in the evaluation of an application for admission. If the information provided is deemed to be insufficient for admission purposes, the University of Otago reserves the right to request an ECE.

If an ECE is required, you must submit your qualifications to:

Education Credentials Evaluation
PO Box 514070
Milwaukee
Wisconsin 53203-3470
United States of America
Tel 1 414 289 3400
Fax 1 414 289 3411
Email Eval@ece.org
Web ece.org

You have to request and pay for the course by course evaluation option, with you and the University each receiving a copy of the resulting evaluation report. This evaluation is an important part of the University's admissions process, and helps to ensure that the University is admitting qualified candidates. The application form can be downloaded from the ECE website at: ece.org

Please note that your application cannot be processed until the evaluation report is received.

You will receive information about the ECE requirement as you go through the online application process.

B. APPLICATION FOR A RESEARCH-ONLY PROGRAMME (MASTER'S BY THESIS OR PhD)

Applicants for research-only study are expected to have contacted a supervisor and obtained approval in principle prior to making application. It is recommended that you first look at the website pages for the relevant department and gather as much information as possible prior to putting together a proposal for research.

General information on research study can be found at otago.ac.nz/study/masters and otago.ac.nz/study/phd

C. SCHOLARSHIPS FOR POSTGRADUATE STUDENTS

Full details on the availability of scholarships and the processes for application can be found on the University's website: otago.ac.nz/study/scholarships. Application for scholarship can normally be made at the same time as you are making your academic online application.

D. CERTIFICATION OF DOCUMENTS

Certified/notarised translations of original documents are required where these are not in English. If original documents are not being provided all copies should be certified/notarised by an authorised authority such as Registrar, Notary Public, Justice of the Peace or Solicitor. Failure to provide certified/notarised documents will result in a delay in the assessment of your application.

2017 international tuition fees

International tuition fees are detailed on the course information pages of this prospectus. The notes below provide further explanatory information on how tuition fees are charged and important policies associated with these fees.

- 1 All fees are inclusive of GST (New Zealand Goods and Services Tax).
- 2 Tuition fees do not include the student services fee.
- 3 Tuition fees do not include any of the University's administrative charges.

2017 administrative fees will be set in late 2016; please see otago.ac.nz/study/fees
- 4 The tuition fees detailed on pages 52-71 provide an estimate of costs for 2017. The tuition fees listed may not represent the actual cost of a programme of study. Generally, a student's total tuition is made up of the collective fees for each paper for which the student is enrolled. The subject category fee (as listed in this schedule) and the EFTS (funding equation) value will determine the fee of any paper. The actual programme fee will be affected by:
 - the enrolment for more or less than 1 EFT (a normal full-time course)
 - the inclusion of papers from different subject areas (which are at different fee rates)
 - the sequencing of enrolment in papers within the course
 - a change to the structure of the course and the availability of papers.
- 5 Tuition fees are assessed each year. The fee categories are applicable only to the calendar year (January-December) in which the course is commenced. If a course of study extends for one or more semesters in a subsequent calendar year(s), the students will be required to pay the tuition fee applicable for that calendar year(s). Annual fee increases (or decreases) are expected to be modest. Under current circumstances this would be in the order of up to 5% per annum.
- 6 An orientation programme will be held before enrolment. There will be no extra charge for participation in this programme.
- 7 Costs for some course materials, field trips and thesis publication are not included in the quoted fees.
- 8 The following students are normally eligible to enrol at the University of Otago under the same conditions as New Zealand students and at the same level of fees:
 - Australian citizens and permanent residents of Australia residing and studying in New Zealand for the duration of their courses of study
 - Citizens of the Cook Islands, Niue and Tokelau who are New Zealand citizens.

Australian citizens and permanent residents of Australia residing and studying outside New Zealand are required to pay full-cost international fees.

- 9 Students who have been granted study awards or scholarships by Rotary International, Commonwealth Scholarship Scheme, Fulbright Awards, or DAAD pay equivalent New Zealand fees only.
- 10 Most PhD students enrolling at a New Zealand university are eligible to pay tuition fees at the New Zealand domestic level. International PhD students must be resident in New Zealand during their studies, apart from approved temporary absences overseas for the purposes of PhD research, to be classified as domestic students. As a guide, the table on page 8 provides 2017 domestic tuition rates.
- 11 Postgraduate fees for 2017 reflect a level of subsidy from the University in recognition of the valuable contribution that is made by postgraduate students to University research.

Student services fee

The University of Otago is required by Government regulation to ensure a range of services are available to students and these are funded through the charging of the Student Services Fee.

In 2016, the Student Services Fee (GST inclusive) for Dunedin on-campus students is \$732.00.

Students whose course is delivered at the University of Otago (Wellington and Christchurch campuses) are charged a Student Services Fee of \$180.80. Southland campus students are charged \$129.85. Distance students are not charged a Student Services Fee as there is no access to services for these students.

Fees refund and fee protection policy

Please note that policies and deadlines are subject to change. Up-to-date policies are available from the University's website.

otago.ac.nz/international/intrefundspolicy.html

2017 key dates

SUMMER SCHOOL

8 January	Latest arrival date for new international students studying at Summer School
9 January	Enrolment/Orientation seminar for new international students
6 February	Formal classes begin
17 February	Waitangi Day (public holiday)
18–23 February	Lectures cease
	Examination period

FIRST SEMESTER

20 February	International students should be on campus by this date
20–24 February	Enrolment/Orientation activities for new international students
24 February	Preliminary lectures begin
27 February	Formal lectures begin
14 April	Good Friday (public holiday)/Mid-semester break begins
17 April	Easter Monday (public holiday)
18 April	Otago Anniversary Day celebrated (University holiday)
24 April	First semester resumes
2 June	Lectures cease
5 June	Queen's Birthday (public holiday)
7 June	First semester examination period begins
21 June	First semester examination period ends

SECOND SEMESTER

3 July	International students should be on campus by this date
3–6 July	Enrolment/Orientation seminar for new international students
10 July	Formal lectures begin
26 August	Mid-semester break begins
4 September	Second semester resumes
13 October	Lectures cease
18 October	End of year examination period begins
23 October	Labour Day (public holiday)
11 November	End of year examination period ends

Accounting ^o			27,600				postgrad.accounting@otago.ac.nz
Economics			27,600				postgrad.economics@otago.ac.nz
Finance			27,600				postgrad.finance@otago.ac.nz
Information Science			30,900				postgrad.infoscience@otago.ac.nz
International Business			27,600				postgrad.internationalbusiness@otago.ac.nz
Management			27,600				postgrad.management@otago.ac.nz
Marketing Management			27,600				postgrad.marketing@otago.ac.nz
Tourism			27,600				postgrad.tourism@otago.ac.nz
Postgraduate Diploma in Health Informatics (PGDipHealthInf) †	1 f/t or 2 p/t	S1 or S2	36,500	D	CWR	DT	This programme is not available for on-campus study
Master of Business Administration (MBA)	16 mths f/t or 30 mths p/t	April	42,000 (2016 fees)	D	CW & major business project	C	Three years' work experience, interview and GMAT 550
Master of Business Administration (MBA) Online option	30 mths	May/October	Contact the International Office	D	CW & major business project	DT	Five years' work experience, interview
Postgraduate Diploma in Business Administration (PGDipBusAdmin)	9 mths f/t or 15 mths online	April	21,000 (2016 fees)	D	CW & consulting report	C	Five years' work experience and interview
Master of Business Data Science (MBusDataSc)	12 mths	S1	46,350	D	CWR	C	postgrad.mba@otago.ac.nz
Master of Economics (MEcon)*	12 mths	S1 or S2	41,400	D	CWR	C	postgrad.infoscience@otago.ac.nz
Master of Entrepreneurship (MEntr)	15 mths	S1	41,400	D	CW	C	postgrad.economics@otago.ac.nz
Master of Finance (MFinc)	12 mths	S1	41,400	D	CWR	C	postgrad.entrepreneurship@otago.ac.nz
Master of International Business (MIntBus)Δ*	12 mths	S1 or S2	41,400	D	CWR	C	postgrad.finance@otago.ac.nz
Master of Marketing (MMart)Δ*	12 mths	S1 or S2	41,400	D	CWR	C	postgrad.internationalbusiness@otago.ac.nz
Master of Professional Accounting (MProfAcct)	18 mths	S2	55,200	D	CWR	C	postgrad.marketing@otago.ac.nz
Master of Sustainable Business (MSusBus)Δ*	12 mths	S1 or S2	41,400-42,200	D	CWR	C	postgrad.business@otago.ac.nz
Master of Tourism (MTour)	12 mths	S1 or S2	41,400	D	CWR	C	postgrad.management@otago.ac.nz
							postgrad.tourism@otago.ac.nz

^o Not offered as a PGDipCom.

Δ Subject to approval.

^Δ The minimum duration assumes a full-time course of study.

Programmes listed as CW consist mainly of coursework papers, but may include a research project or dissertation.

* Where a master's programme is available as a one-year research option, the entry may be S1 or S2. The availability of papers in any particular year may preclude an S2 intake for some coursework programmes.

† Important notes to be read with the 2017 indicative fees are located on page 49.

‡ Honours is available in 4th year.

† Course run through Department of Information Science, School of Business.

THEOLOGY

Postgraduate Diploma in Theology (PGDipTheol)	1	S1 or S2	25,600	D	CW	C & DT		postgrad.theology@otago.ac.nz
Biblical Studies								
Christian Thought and History								
Pastoral Studies								
Master of Theology (MTheol)	1	Any time	25,600	D	R	C & DT		postgrad.theology@otago.ac.nz
Postgraduate Diploma in Ministry (PGDipMin)	1	S1 or S2	25,600	D	CW	C & DT		postgrad.theology@otago.ac.nz
Master of Ministry (MMin)	2	S1 or S2	25,600	D	2yr CWR or 1yr CWR	C & DT	Minimum of three years' ministry experience	postgrad.theology@otago.ac.nz
Postgraduate Certificate in Chaplaincy (PGCertChap)	0.5	S1 or S2	12,800	D	CW	C & DT		postgrad.theology@otago.ac.nz
Postgraduate Diploma in Chaplaincy (PGDipChap)	1	S1 or S2	24,600	D	CW	C & DT		postgrad.theology@otago.ac.nz
Master of Chaplaincy (MChap)	1.5	S1 or S2	38,400	D	CW	DT & R		postgrad.theology@otago.ac.nz
Doctor of Philosophy (PhD)	3	Any time		D	R			phd@otago.ac.nz

APPLIED SCIENCE								
Postgraduate Certificate in Applied Science (PGCertAppSc)	0.5	S1		D	CW	C		postgrad.appliedscience@otago.ac.nz
Applied Geology			15,450					
Bioengineering			15,450					
Clothing and Textile Sciences			15,450					
Computational Modelling			15,450					
Computer Science			15,450					
Consumer Food Science			15,450					
Creative Non-fiction Writing in Science			15,450					
Electronics			15,450					
Environmental Management			15,450					
Geographic Information Systems			15,450					
Microbiology			16,850					
Molecular Biotechnology			16,850					
Plant Biotechnology			16,850					
Science Innovation and Enterprise			15,450					
Software and Knowledge Engineering			15,450					
Sports and Exercise Nutrition			15,450					
Telecommunications			15,450					
Postgraduate Diploma in Applied Science (PGDipAppSc)	1	S1		D	CW	C		postgrad.appliedscience@otago.ac.nz
Applied Geology			30,900					
Bioengineering			30,900					
Clothing and Textile Sciences			30,900					
Computational Modelling			30,900					
Computer Science			30,900					
Consumer Food Science			30,900					
Creative Non-fiction Writing in Science			30,900					
Electronics			30,900					
Environmental Management			30,900					
Geographic Information Systems			30,900					
Microbiology			33,700					
Molecular Biotechnology			33,700					
Plant Biotechnology			33,700

SCIENCE								
Bachelor of Science with Honours (BSc(Hons))	1		Fees as per below	D	CW	C		
Postgraduate Diploma in Science (PGDipSci)	1		Fees as per below	D	CW	C		
Master of Science (MSc)	1			D	R	C		
Anatomy		S1 or S2	33,700			C		postgrad.anatomy@otago.ac.nz
Biochemistry		S1	33,700			C		postgrad.biochemistry@otago.ac.nz
Bioengineering (MSc only)		S1	30,900			C		postgrad.appliedscience@otago.ac.nz
Botany		S1 or S2	30,900			C		postgrad.botany@otago.ac.nz
Chemistry		S1	30,900			C		postgrad.chemistry@otago.ac.nz
Clothing and Textile Sciences		S1	30,900			C & DT		postgrad.clothingandtextiles@otago.ac.nz
Cognitive Science (MSc only)		S1	30,900			C		postgrad.cognitivescience@otago.ac.nz
Computer Science		S1	30,900			C		postgrad.computerscience@otago.ac.nz
Ecology		S1	30,900			C		postgrad.ecology@otago.ac.nz
Economics		S1 or S2	27,600			C		postgrad.economics@otago.ac.nz
Electronics*		S1	30,900			C		postgrad.electronics@otago.ac.nz
Energy Studies*		S1 or S2	30,900			C		postgrad.energymanagement@otago.ac.nz
Environmental Management (MSc only)		S1	30,900			C		postgrad.appliedscience@otago.ac.nz
Environmental Science (MSc only)		S1	30,900		CWR	C		postgrad.environmentalscience@otago.ac.nz
Food Science		S1	30,900			C		postgrad.foodscience@otago.ac.nz
Genetics		S1 or S2	33,700			C		postgrad.genetics@otago.ac.nz
Geography		S1	30,900			C		postgrad.geography@otago.ac.nz
Geology		S1	30,900			C		postgrad.geology@otago.ac.nz
Geophysics (MSc only)		S1	30,900			C		postgrad.geophysics@otago.ac.nz
Human Nutrition		S1 or S2	30,900			C		postgrad.humannutrition@otago.ac.nz
Immunology (MSc only)		S1 or S2	33,700			C		postgrad.immunology@otago.ac.nz
Information Science		S1	30,900			C		postgrad.informationscience@otago.ac.nz
Marine Science*		S1	30,900			C		postgrad.marinescience@otago.ac.nz
Mathematics		S1 or S2	25,600			C		postgrad.maths@otago.ac.nz
Microbiology		S1	33,700			C		postgrad.microbiology@otago.ac.nz
Neuroscience		S1	33,700			C		postgrad.neuroscience@otago.ac.nz
Pharmacology		S1	33,700			C		postgrad.pharmacology@otago.ac.nz
Physics		S1 or S2	30,900			C		postgrad.physics@otago.ac.nz
Physiology		S1	33,700			C		postgrad.physiology@otago.ac.nz

Plant Biotechnology	S1	33,700		C		postgrad.plantbiotech@otago.ac.nz
Psychology	S1	30,900		C		postgrad.psychology@otago.ac.nz
Software Engineering §*	S1 or S2	30,900		C		postgrad.softwareengineering@otago.ac.nz
Statistics	S1 or S2	25,600		C		postgrad.statistics@otago.ac.nz
Surveying*	S1	30,900		C	CW	postgrad.surveying@otago.ac.nz
Toxicology (MSc only)	S1	33,700		C		postgrad.toxicology@otago.ac.nz
Wildlife Management (MSc only)	1 year by thesis only	30,900		C	PGDipWLM or MWLM	postgrad.wildlifemanagement@otago.ac.nz
Zoology	S1 or S2	30,900		C	CW	postgrad.zoology@otago.ac.nz

APPLIED STATISTICS

Postgraduate Diploma in Applied Statistics (PGDipApStat)	1	S1 or S2	25,600	D	CW	C	postgrad.appliedstats@otago.ac.nz
--	---	----------	--------	---	----	---	-----------------------------------

DIETETICS

Master of Dietetics (MDiet)	2	S1	30,900	D		C	IELTS of 7.5	postgrad.dietetics@otago.ac.nz
-----------------------------	---	----	--------	---	--	---	--------------	--------------------------------

SCIENCE COMMUNICATION

Master of Science Communication (MSciComm)	2	S1	30,900	D	CWR	C & DT	Graduate entry or work experience and relevant qualification	postgrad.sciencecommunication@otago.ac.nz
Endorsed in Science in Society								
Endorsed in Science and Natural History Filmmaking								
Endorsed in Creative Non-fiction Writing in Science								
Unendorsed								

Postgraduate Certificate in Science Communication (PGCertSciComm)	0.5	S1	15,450	D	CWR	C & DT		postgrad.sciencecommunication@otago.ac.nz
---	-----	----	--------	---	-----	--------	--	---

Postgraduate Diploma in Science Communication (PGDipSciComm)	1	S1	30,900	D	CWR	C & DT		postgrad.sciencecommunication@otago.ac.nz
--	---	----	--------	---	-----	--------	--	---

WILDLIFE MANAGEMENT

Postgraduate Diploma in Wildlife Management (PGDipSciComm)	1	S1 or S2	30,900	D	CW	C	Work experience and relevant qualification	postgrad.wildlifemanagement@otago.ac.nz
Master of Wildlife Management (MWLM)	1.5	S1 or S2 (for whole programme)	46,350	D	CW	C		postgrad.wildlifemanagement@otago.ac.nz

SURVEYING

Master of Surveying (MSurv)	1 to 2	S1 or S2	30,900	D	2 yr CWR or 1 yr R	C	IELTS of 7.5 with no band below 7.0	postgrad.surveying@otago.ac.nz
-----------------------------	--------	----------	--------	---	--------------------	---	-------------------------------------	--------------------------------

Doctor of Philosophy (PhD)	3	Any time		D	R	C		phd@otago.ac.nz
In all subject areas listed above								

Programmes listed as CW consist mainly of coursework papers but may include a research project or dissertation.

§ Important notes to be read with the 2017 Indicative fees are located on page 49.

* Only for PGDipSci.

* Honour's not available.

The University Of Otago

The University has teaching campuses in four New Zealand cities

Dunedin

University of Otago main campus

Undergraduate and postgraduate courses

Commerce (Otago Business School)

Humanities (Arts, Music, Education, Law, Theology)

Sciences

Health Sciences (including the Schools of Dentistry, Pharmacy, Physiotherapy, Otago School of Medical Sciences, Faculty of Medicine)

Research and clinical training

Distance education

Administration

Wellington

University of Otago, Wellington

School of Medicine and Health Sciences

Research and clinical training

Postgraduate courses

Distance education

Christchurch

University of Otago, Christchurch

School of Medicine and Health Sciences

Research and clinical training

Postgraduate courses

Distance education

Invercargill

University of Otago College of Education
(Southland Campus)
